

Announcement

Final Assessment of the Capital Exercise by the European Banking Authority

Nicosia, 3 October 2012

Founded in 1899, the Bank of Cyprus Group is the leading Cypriot banking and financial services group. In addition to retail and commercial banking, the Group's activities include finance, factoring, investment banking, brokerage, fund management, private banking, life and general insurance. The Group currently operates through a total of 561 branches, of which 191 operate in Russia, 184 in Greece, 127 in Cyprus, 44 in Ukraine, 10 in Romania, 4 in the United Kingdom and 1 in the Channel Islands. Bank of Cyprus also has 6 representative offices in Russia, Romania, Ukraine, Serbia and South Africa. The Bank of Cyprus Group employs 11.183 staff worldwide.

At 30 June 2012, the Group's Total Assets amounted to €37,15 bn and the Shareholders' Funds were €2,33 bn. The Bank of Cyprus shares are listed on the Cyprus and Athens Stock Exchanges. Additional information can be found on the Group's website www.bankofcyprus.com.

Bank of Cyprus Public Company Ltd (the 'Bank' or 'Bank of Cyprus') notes the announcements made today by the European Banking Authority ('EBA') and the Central Bank of Cyprus regarding the final assessment of the capital exercise and fulfilment of the EBA December Recommendation ('Recommendation'), which demonstrate the following result for Bank of Cyprus.

Bank of Cyprus has a remaining capital shortfall as of 30 June 2012, which is being addressed through the implementation of the corresponding backstops with the explicit support of the Cyprus Government.

On 27 June 2012, in light of the 30 June 2012 deadline set by the EBA for the recapitalization of banks, the Bank announced that despite the fact that it has proceeded with a series of actions to cover the capital deficit of €1.560 mn as estimated by the EBA in December 2011, it was not able to fully cover its capital shortfall and as a result applied to the Cyprus Government for capital support.

To cover its capital needs as estimated by EBA, the Bank took a number of actions and covered a significant part of the capital shortfall.

At 30 June 2012 the capital adequacy ratio of the Bank of Cyprus Group (the "Group") amounted to 7,6% with the Core Tier 1 capital ratio and the Tier 1 capital ratio at 5,1% and 7,3% respectively. It is noted that the Group has in issue €430 mn Convertible Enhanced Capital Securities (CECS), which represent 1,8% of risk-weighted assets and which are included in the Tier 1 ratio but not in the Core Tier 1 ratio.

Based on the Group's capital position as at 30 June 2012, the capital deficit to meet the EBA requirement of a Core Tier 1 ratio of 9% plus Sovereign capital buffer is estimated at approximately €730 mn.

In June 2012, the Cyprus Government requested financial support from Euro area Member States, through the EFSF/ESM, and international support from the IMF, in the framework of a full assistance programme. The programme will encompass measures to ensure the stability of the financial sector, actions to carry out the fiscal adjustment to support the ongoing process of fiscal consolidation and structural reforms. Preliminary discussions leading to a Memorandum of Understanding have already taken place and further discussions are expected during October in order to finalise and sign the Memorandum of Understanding. Under the EU/IMF programme, an asset quality review of the Cypriot banks will start very shortly, including a stress test exercise, with the aim to determine the eventual capital needs of the banks.

Background on the EBA capital exercise

The EBA Recommendation on the creation of temporary capital buffers to restore market confidence was adopted by the Board of Supervisors on 8 December 2011 to address the difficult situation in the EU banking system, especially with regard to the sovereign exposures, by restoring stability and confidence in the markets. The Recommendation was part of a suite of measures agreed at EU level.

The Recommendation called on National Authorities to require banks included in the sample to strengthen their capital positions by building up an exceptional and temporary buffer such that their Core Tier 1 capital ratio reaches a level of 9% by the end of June 2012. In addition, banks were required to an exceptional and temporary capital buffer against sovereign debt exposures to reflect market prices as at the end of September 2011. The amount of the sovereign capital buffer has not been revised.

The initial sample of the Capital Exercise included 71 banks. However, the 6 Greek banks were treated separately as the country is currently under an EU/IMF assistance programme. Moreover, four banks (Österreichische Volksbank AG, Dexia, WestLB AG and Bankia) from the original sample have been identified as undergoing a significant restructuring process, and are being monitored separately. Therefore, the final assessment published today refers to 61 banks.

Overall Shortfall (+) / Surplus (-) after including sovereign capital buffer and additional impairments on sovereign exposures	691		730		9% RWA - (CT 1 including existing government support measures - Sovereign capital buffer for exposures in EEA)

Notes and definitions

(1) The amount is already included in the computation of the eligible capital and reserves and it is provided separately for information purposes.

(2) According with CRD3 it can include also 50% securitisation exposures in the trading book subject to 1250% risk weight and not included in RWA.

(3) It includes also possible differences between the book value and the fair value of: (i) direct sovereign exposures in derivatives; (ii) indirect sovereign exposures in the banking and trading book

Notes and definitions

- (1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees
- (2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.
- (3) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and or accounting classification of the positions **the economic substance over the form** must be used as a criteria for the identification of the exposures to be included in this column. This item **does not include** exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments
- (4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.
- (5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).

Exposures to sovereigns (central, regional and local governments) in EEA, as of 30 June 2012

Notes and definitions

- (1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees
- (2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.
- (3) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and or accounting classification of the positions **the economic substance over the form** must be used as a criteria for the identification of the exposures to be included in this column. This item **does not include** exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments
- (4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.
- (5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).
