

Anti-Bribery & Corruption Group Policy

1. Purpose

Bank of Cyprus Group (“the Group”) conducts its business fairly with honesty and transparency and this must be reflected in every aspect of our business affairs. Senior Management is committed to ensure adherence to legal and ethical standards. The action and conduct of Group Directors, Managers and employees as well as others acting on the Group’s behalf is essential to maintaining these standards. To that end, all Group personnel, including agents, consultants and contractors as well as suppliers and any other form of associates involved Group international business must be familiar and comply with this Anti - Bribery and Corruption Policy (this Policy).

Bribery, and other forms of Corruption, are a criminal offence in most countries and Bribery acts expose the Group and its employees to the risk of prosecution, fines and imprisonment, as well as endangering the Group’s reputation. Business relationships rely on trust. Bribery and Corruption abuse that trust, and goods and services are not procured in a clear, ethical or transparent way. For this reason, the Bank and its employees should never accept or pay bribes, including facilitation payments, or make, offer or promise to make, or authorize the payment or giving of any bribe, rebate, payoff, influence payment, facilitation payment, kickback or other unlawful payment or gift of money or anything of value prohibited under any applicable law or regulation. The Group values its reputation for ethical behavior and for financial integrity and reliability. It recognizes that over and above the commission of any crime, any involvement in Bribery will also reflect adversely on its image and reputation. Even the suggestion of Corruption may damage our reputation and may also bring the personal integrity of individuals into question.

This Policy has been adopted by the Board of Directors and is communicated to everyone involved to ensure their commitment to it. The Board of Directors applies a **"zero tolerance"** approach to acts of Bribery and Corruption by any of our employees or any business partners.

The Group’s culture promotes doing business with integrity - encouraging the right behavior, discouraging the wrong behavior and protecting those reporting wrong behavior.

Any breach of this Policy will be regarded as a serious offence by Group and it will result in disciplinary action. The Group has procedures in place which enable it to take disciplinary action against personnel who violate this Policy.

The Group encourages all employees to report any suspicious activity that may violate this Policy. A confidential and discrete way to report any violations or suspicious activity is in place.

2. Sectors Affected

All entities of the group must, as a minimum, meet the requirements of this Policy. In any country where the requirements of applicable legislation, directives or practices establish a higher standard, the corresponding entities must meet those standards.

Senior Management and Board Members file an annual declaration confirming their compliance with the Anti- Bribery and Corruption Group Policy.

3. Policy

The following rules and principles are particularly relevant to Bribery and Corruption issues and should be adhered by the Group:

- Principle 1: Conduct our business with integrity.
- Principle 2: Conduct our business with due skill, care and diligence.
- Principle 3: Take reasonable care to organize and control our affairs responsibly and effectively, with adequate risk management systems.

The Group is committed to prohibit the offering, promising, giving, accepting or soliciting of an advantage (monetary or not) as an inducement for an action which is illegal or which is a breach of trust or for performing functions or activities improperly constituting Improper Performance or the rewarding of persons for already performing their activities improperly. In this framework the following principles should be applied:

General Principles

- i. **Senior Management:** The Group Senior Management is committed to maintain a culture in which Bribery is never acceptable and intends that its zero tolerance Policy is clearly communicated to all employees and all relevant third parties. Senior Management needs to engender a truly transparent and ethical compliance culture that encourages accountability and detects and discourages any form of Bribery.

 - vi. **Public Officials:** Government and public official interactions require heightened care, diligence and transparency and a need for appropriate disclosures and approvals ahead.
 - vii. **Payments & Financial Controls:** Group's expenses and payments procedures and authorization processes require a clear understanding of why payments are made and to whom. We have similar expectations from our third parties. All books and records must be kept and falsifying records to conceal a bribe is a criminal offense.
 - viii. **Human Resources:** All human resources practices including recruitment, training, performance evaluation and recognition reflect the Group's commitment to this Policy. Personnel will not suffer retaliation, discrimination or disciplinary action for (a) refusing to participate in any activity in respect of which they have reasonably judged there to be a more than low risk of Bribery that has not been mitigated by the Group's and (b) concerns raised or reports made for actual or suspected Bribery violation.

Paying excessive travel and entertainment expenses on behalf of the Group to obtain and/or maintain business may be interpreted as Bribery. The following questions can assist in accepting/rejecting a gift. The recipient of the gift should examine whether the gift:
