1. About this document

This document serves as a practical guide to accessibility features at Bank of Cyprus branch locations across the island. By providing transparent, branch-specific information, this guide empowers you to find locations that meet your specific needs, so that you can navigate banking services confidently and comfortably. Our goal is not only to inform, but to promote continued progress toward a more inclusive banking experience throughout Cyprus. [For more information on Accessibility in Bank of Cyprus, refer to our website page.](#)

In Section 2 you will find a list of all Bank of Cyprus branches, separated by city. It displays the Branch code, Branch name, Branch type, and accessibility features. The branch types and accessibility features are explained in sections 1.1 and 1.2.

1.1. Branch type

The branch type refers to the type of services provided there. Below you will find short descriptions of each Branch type.

Branch type	Services provided
Branch	Offers the full range of Bank services for service counter transactions and lending.
Lending Unit	Serve individuals, the self-employed and small businesses for loans and account management
Transactions Branch	Service counter transactions (deposits, withdrawals, transfers, foreign exchange, etc.) and account management services.
Digital Branch	Unmanned branches which operate only with self-service machines (ATMs and deposit machines for use by legal entities).
ATM only	ATM available only. Note that some of these are drive-through ATMs and this is indicated by a footnote where applicable.

1.2. Accessibility features

The table below describes each accessibility feature. Each accessibility feature can have the value of ‘yes’ or ‘no’. In the case of ATM-only branches, the accessibility features ‘step-free access to entrance’, ‘automatic door’, ‘accessible toilet’, ‘accessible service counter’ and ‘soundproof and private meeting room’ have the value Not Applicable (N/A).

Service dogs are welcome at all our branches. Please ensure they wear an identifying harness and that you bring appropriate documentation.

Accessibility feature	Description
Step-free access to ATM	The ATM can be reached without climbing stairs or navigating steps above 2cm high, ensuring smooth access for wheelchair users, those with mobility challenges, and parents with strollers.
Step-free access to entrance	The main entryway has a flat or gently sloped pathway, allowing all visitors, regardless of mobility level, to enter comfortably without barriers.
Automatic door	Doors open automatically via sensors or push-button controls, providing access that benefits wheelchair users, those with limited dexterity, and anyone carrying items.
Accessible parking	Designated parking bays with extra space for ramp-equipped vehicles and easy movement around cars for those using mobility aids. This may be parking provided by the Bank, public parking or parking provided by the venue (e.g., Airport, Mall). Note that Blue Badges must be displayed.
Soundproof and private meeting room	A confidential space shielded from external noise and enclosed to ensure visual privacy. Designed to support individuals who require sign language interpretation by ensuring confidentiality, and also beneficial for those with sensory sensitivities who thrive in low-stimulus settings.

2. List of accessibility features in branches per city
