

Bank of Cyprus Group

Group Financial Results

For the year ended 31 December 2020

Bank of Cyprus Holdings

DISCLAIMER

The financial information included in this presentation is not audited by the Group's external auditors.

The Group statutory financial statements for the year ended 31 December 2020, upon which the auditors have given an unqualified report, can be found on the website (<https://www.bankofcyprus.com/en-GB/investor-relations-new/reports-presentations/financial-results/>).

This financial information is presented in Euro (€) and all amounts are rounded as indicated. A comma is used to separate thousands and a dot is used to separate decimals.

The Investor Presentation published today, includes an update of the performance of loans under payment deferrals that expired on 31 December 2020.

Important Notice Regarding Additional Information Contained in the Investor Presentation

The presentation for the Group Financial Results for the year ended 31 December 2020 (the "Presentation"), available on <https://www.bankofcyprus.com/en-GB/investor-relations-new/reports-presentations/financial-results/>, includes additional financial information not presented within the Group Financial Results Press Release (the "Press Release"), primarily relating to (i) NPE analysis (movements by segments and customer type), (ii) rescheduled loans analysis, (iii) details of historic restructuring activity including REMU activity, (iv) analysis of new lending, (v) Income statement by business line, (vi) NIM and interest income analysis and (vii) Loan portfolio analysis in accordance with the three-stages model for impairment of IFRS 9. Moreover, the Investor Presentation includes additional financial information not presented in the Results Announcement of current and expected medium term levels for (i) NPE coverage, (ii) growth of performing loan book, (iii) ratio of revenue over total assets, (iv) ratio of fee and commission over total assets, (v) ratio of total revenues over RWAs, (vi) market shares and total regular income or gross written premiums of insurance companies, (vii) restructuring expenses, (viii) cost to income ratio (excluding special levy and contributions to Single Resolution Fund and Deposit Guarantee Fund), and (ix) ESG performance metrics. Except in relation to any non-IFRS measure, the financial information contained in the Investor Presentation has been prepared in accordance with the Group's significant accounting policies as described in the Group's Annual Financial Report 2020. The Investor Presentation should be read in conjunction with the

information contained in the Press Release and neither the financial information in the Press Release nor in the Investor Presentation constitutes statutory financial statements prepared in accordance with International Financial Reporting Standards.

Forward Looking Statements

This document contains certain forward-looking statements which can usually be identified by terms used such as "expect", "should be", "will be" and similar expressions or variations thereof or their negative variations, but their absence does not mean that a statement is not forward-looking. Examples of forward-looking statements include, but are not limited to, statements relating to the Group's near term, medium term and longer term future capital requirements and ratios, intentions, beliefs or current expectations and projections about the Group's future results of operations, financial condition, expected impairment charges, the level of the Group's assets, liquidity, performance, prospects, anticipated growth, provisions, impairments, business strategies and opportunities. By their nature, forward-looking statements involve risk and uncertainty because they relate to events, and depend upon circumstances, that will or may occur in the future. Factors that could cause actual business, strategy and/or results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements made by the Group include, but are not limited to: general economic and political conditions in Cyprus and other European Union (EU) Member States, interest rate and foreign exchange fluctuations, legislative, fiscal and regulatory developments, information technology, litigation and other operational risks, adverse market conditions, the impact of outbreaks, epidemics or pandemics, such as the COVID-19 pandemic and ongoing challenges and uncertainties posed by the COVID-19 pandemic for businesses and governments around the world. Should any one or more of these or other factors materialise, or should any underlying assumptions prove to be incorrect, the actual results or events could differ materially from those currently being anticipated as reflected in such forward looking statements. The forward-looking statements made in this document are only applicable as at the date of publication of this document. Except as required by any applicable law or regulation, the Group expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward looking statement contained in this document to reflect any change in the Group's expectations or any change in events, conditions or circumstances on which any statement is based.

Highlights

2020 Achievements

Successful navigation through the pandemic with clear priorities

- Protection of staff and customer health, while ensuring operational resilience of the Bank
- c.€1.4 bn new lending to support the recovery of the Cypriot economy
- Payment holidays until end of 2020 to >25k customers (€5.9 bn)

Significant progress on balance sheet de-risking despite challenging environment

- €2.1 bn NPEs reduction pro forma¹; €1.5 bn NPE sales and €0.6 bn organic
- Gross NPE ratio reduced to 16%¹ (7%¹ net) and NPE coverage increased to 59%¹, both pro forma
- RWA intensity reduced to 53% pro forma¹

Asset quality management throughout the pandemic

- Provision of support to impacted customers to alleviate short term cash flow burden
- Close monitoring of loans in moratoria
- Encouraging performance since the end of moratorium (31 December 2020); €3.8 bn of performing loans had an instalment due by 19 March 2021 and 96% of those resumed payments

Careful cost management

- Total operating expenses² in FY2020 down 12% yoy
- C/I ratio at 60%² for FY2020, broadly flat yoy
- Digitally engaged customers increased to 75%, up 6 p.p. yoy

Launch of New Strategic Plan and Medium Term Targets

- Single digit NPE ratio by the end of 2022
- Return of Tangible Equity (ROTE) of c.7%

1) Pro forma for Helix 2 (Portfolio A and B). Calculations on a pro forma basis which assume legal completion of the transaction
 2) Excluding Special Levy and contributions to SRF and DGF

4Q2020 - Highlights

Positive Organic Performance in 4Q2020

**€45 mn
Operating Profit**

- New lending of €374 mn in 4Q2020, up 30% qoq, reflecting early recovery post 1H2020 lockdown
- Total income of €142 mn up 3% qoq
- Cost of risk of 99 bps
- Organic profit after tax of €2 mn
- Exceptional items of €51 mn, including provisions/net loss relating to NPE sales¹ of €42 mn
- Loss after tax of €49 mn for 4Q2020 and €171 mn for FY2020, post exceptional items

Operating Efficiency

**64%
Cost/Income²**

- Total operating expenses² of €91 mn for 4Q2020, up 7% qoq
- Cost to income ratio² at 64% for 4Q2020

Good Capital Strong Liquidity

**15.2%
CET1 ratio^{3,4}**

- CET1 ratio of 15.2%^{3,4} and Total Capital ratio of 18.7%^{3,4}
- Deposits at €16.5 bn, broadly flat yoy and qoq
- Significant surplus liquidity of €4.2 bn (LCR at 254%)

Significant Progress in Balance Sheet Repair

**7%
Net NPE ratio³**

- €0.5 bn NPE sale (Helix 2 Portfolio B) signed in January 2021; €1.5 bn NPE sales since December 2019
- NPEs reduced by €2.1 bn³ to €1.8 bn³ (€0.7 bn net)³ in FY2020
- Gross NPE ratio reduced to 16%³ (7% net³) and coverage maintained at 59%³

1) Including restructuring expenses

2) Excluding Special Levy and contributions to SRF and DGF

3) Pro forma for Helix 2 (Portfolio A and B). Calculations on a pro forma basis which assume legal completion of the transaction

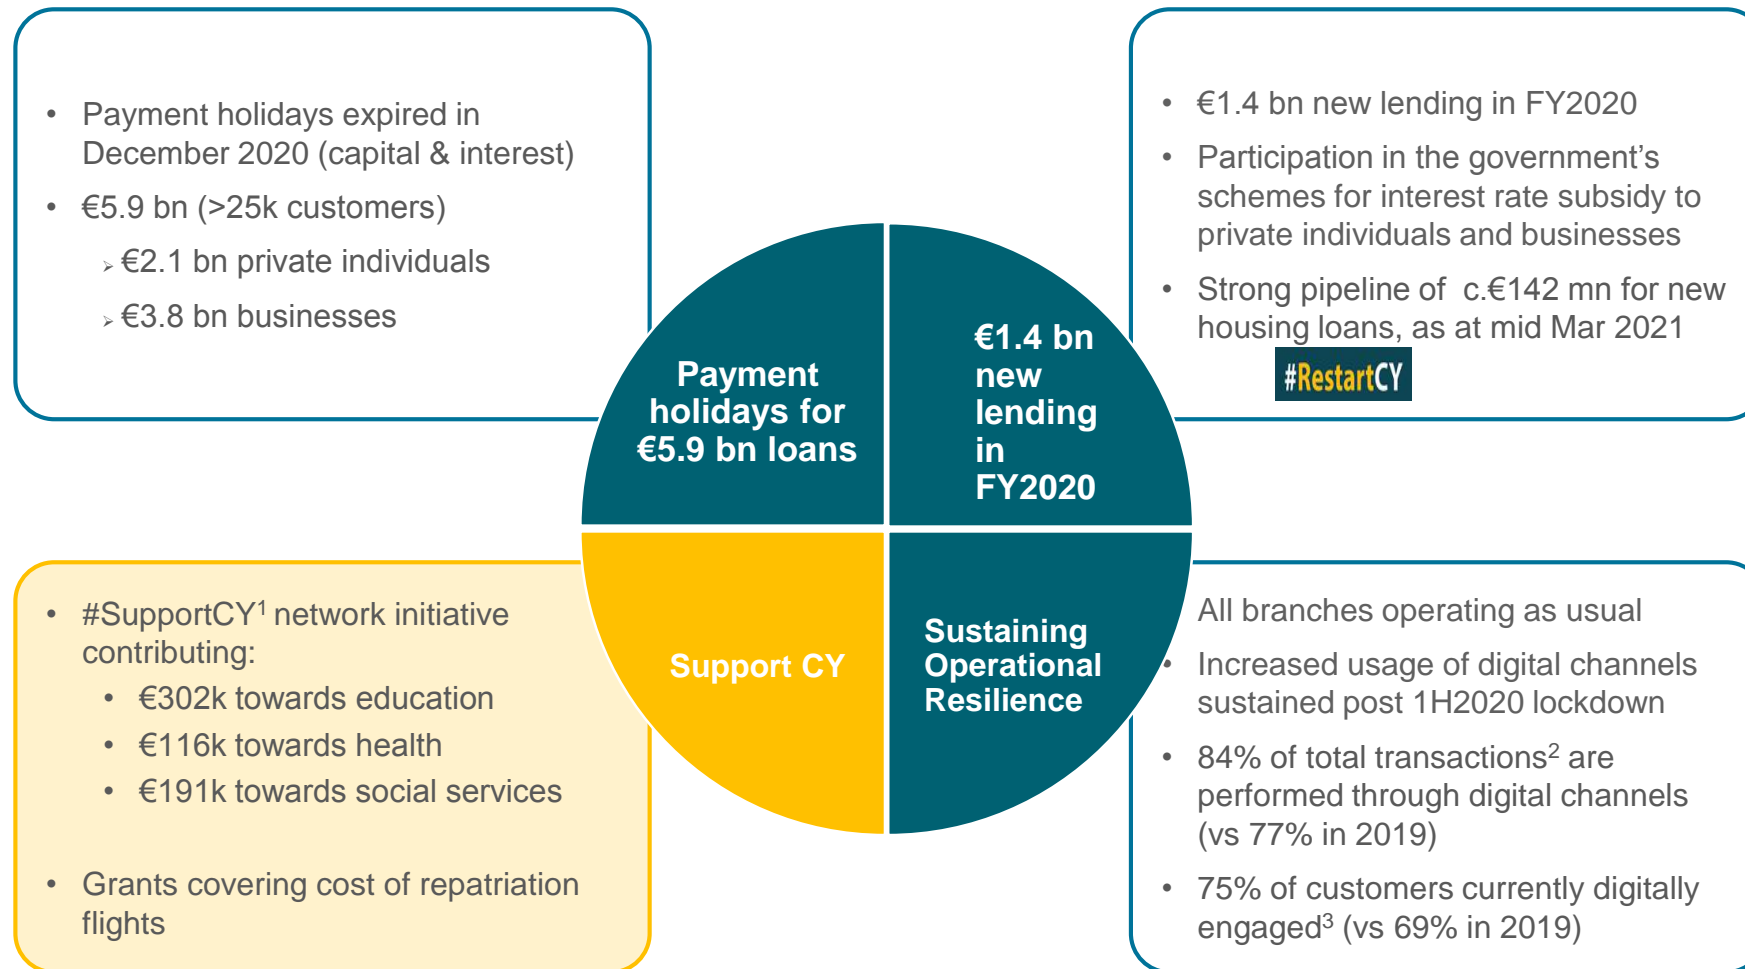

4) Allowing for IFRS 9 and temporary treatment for certain FVOCI instruments transitional arrangements

Our journey

1) Subject to market conditions

On-going support to customers and society through COVID-19

1) #SupportCY is a network of 93 companies and NGOs, initiated by Bank of Cyprus, during March 2020, with the aim to support the public services performing frontline duties during the Pandemic and wider Society

2) This is the ratio of the number of digital transactions performed by individuals and legal entity customers to the total number of transactions. Transactions include deposits, withdrawals, internal and external transfers. Digital channels include mobile, browser and ATMs

3) This is the ratio of digitally engaged individual customers to the total number of individual customers. Digitally engaged customers are the individuals who use the digital channels of the Bank (mobile banking app, browser and ATMs) to perform banking transactions, as well as digital enablers such as a bank-issued card to perform online card purchases

Timely and strong response by the Government of Cyprus

Comprehensive and far reaching measures to support performing businesses and the wider economy

2021

- **Additional package of measures of c.€400 mn for the support of the businesses and the self employed launched in 1Q2021, including:**
 - Subsidy plan for businesses and self employed impacted by lockdowns:
 - Coverage of rents and other operational expenses
 - c.30,000 businesses expected to benefit
 - Second loan moratorium for business and private individuals impacted by the second lockdown up to 30 Jun 2021
 - Eligible borrowers entitled to total moratorium of up to 9 months, inclusive of any time spent on moratorium during 2020
 - Extension of subsidy of interest rate of new business and housing loans
 - Subsidy of interest rate for 4 years
 - Application deadline extended to 31 Dec 2021
 - Employment compensation schemes for businesses impacted by the second lockdown to protect jobs and avoid layoffs
- **€1.0 bn of government funding raised in Feb 2021**

2020

- **Fiscal measures of c.€950 mn¹ accounting for c.4.5%¹ of GDP launched in 2020, including:**
 - Moratorium of loan instalment for 9 months until Dec 2020
 - Liquidity support to businesses and households
 - Employment compensation schemes for businesses impacted by COVID-19, to protect jobs and avoid layoffs
 - Subsidy of interest rate of new Business and Housing Loans
 - Financing of SMEs through CYPEF¹ (€800 mn)
- **€3.0 bn of government funding raised in Apr 2020; vote of confidence to the Cypriot economy**

European Authorities measures-Implications for Cyprus

- EU Recovery Fund (€2.4 bn)
- Pan-European Guarantee Fund (PEGF) (€300-€400 mn)
- EU SURE Programme (€479 mn)
- Access to ESM's Pandemic Crisis Support through the Enhanced Conditions Credit Line, for c.€440 mn (2% of GDP)

1) Estimation of Bank of Cyprus' Economic Research Department

GDP contraction of 5.1% in 2020, significantly outperforming Euro area

- Open, small and flexible economy which has demonstrated historically that it can quickly recover from economic crises
- Unprecedented policy response mitigating COVID-19 impact; Re-introduction and tightening of containment measures in 4Q2020 for the second wave; expected to lead to some loss of momentum in economic recovery in early 2021
- Successful management of the pandemic to date; Cyprus ranks first among EU countries in terms of coronavirus testing and fifth globally for the management of the pandemic²
- The development of effective vaccines is encouraging; successful vaccination programmes both in Cyprus and abroad expected to be strong catalysts for economic recovery; over 60% of the population over 18 years old expected to be vaccinated by the end of Jun 2021
- The reduction in international tourist arrivals in 2020, was partly offset by domestic tourism, a trend expected to continue in 2021; A recovery in tourist activity is expected from 2H2021 and will be linked with international vaccine programmes
- UK, and Israel that account for >40% of tourism arrivals are well progressed with vaccination plans

Economy contracted by 4.5% in 4Q2020; significant rebound expected in 2021

Tourist arrivals in 2020 impacted by COVID-19

2) As 31 December 2020

Encouraging trends as payment deferrals end

Expired Payment Deferrals: payment behaviour

- Cautiously optimistic based on customer behaviour by 19 Mar 2021
- €5.9 bn of loans under 2020 moratorium which expired on 31 Dec 2020:
 - €0.3 bn relate to overdrafts¹
 - €3.8 bn of performing loans had an instalment due by 19 Mar 2021; 96% resumed payments
 - €0.3 bn of performing loans have an instalment due between 19 Mar 2021 and end of Mar 2021
 - €0.3 bn relate to NPEs at the start of the moratorium that were eligible and participated in the scheme
- Careful monitoring of arrears in 2021
- In close contact with customers with early arrears to offer solutions as necessary
- **Second moratorium** launched in Jan 2021 for customers impacted by second lockdown
 - Application period expired on 31 Jan 2021; **c.€20 mn** approved
 - Payment deferrals up to Jun 2021
 - Total months under moratorium, when including 2020 moratorium, cannot exceed 9 months

Total gross loans portfolio (€12.3 bn in Dec-20)

Delinquency buckets show resilience

1) Overdrafts and current accounts have no instalment due
 2) Arrears as at 31 Dec 2020, 31 Jan 2021 and 12 Feb 2021 are calculated based on the new regulation on Definition of Default implemented as of 1 Jan 2021, affecting NPE exposures and the calculation of Days-Past-Due

Private individuals loan portfolio, highly collateralised

Private Individuals: €4.09 bn

Expired Payment deferrals: €2.08 bn (51%)

Expired Payment Deferrals:
€2.08 bn (51%)

93% private individuals performing loans under payment deferrals had an instalment due by 19 Mar 2021

93% of these, resumed payments

- Careful monitoring of arrears in 2021
- Housing performing loans: €3.40 bn**
 - Low LTV¹ housing portfolio
 - 63% of portfolio with LTV¹<60%
 - Only 8% of portfolio with LTV¹>100%
- Other: €0.69 bn**
 - 62% secured portfolio
 - of which 60% with property
 - of which 40% with other type of collateral

LTV ¹	Housing €3.40 bn	Other €0.69 bn
< 60%	63%	30%
60%-80%	21%	5%
80-100%	8%	7%
>100%	8%	58%

1) Loan to Value (LTV) is calculated as the Gross IFRS Balance to the indexed market value of the property. Under Pillar 3 disclosure, LTV is calculated as the Gross IFRS Balance to the indexed market value of collateral. Collateral takes into consideration the mortgage amount registered in the land registry plus legal interest from registration date to the reference date

2) Overdrafts and current accounts have no instalment due

Business portfolio well diversified, with high quality collateral

Business gross loans (excluding Legacy)¹

Breakdown, by Covid-19 impact

Payment deferrals that expired on 31 December 2020

- **98% of expired performing payment deferrals with an instalment due by 19 Mar 2021 resumed payments**
- Careful monitoring of arrears in 2021
- **High quality origination via prudent underwriting standards**
 - Strong assessment of repayment capability
 - Strict origination standards
 - Effective foreclosure law in place, following the amendments in recent years
- **99% of new exposures² since 2016 were performing at the start of the moratorium**
- **90% of portfolio secured**
 - of which 80% with property
 - of which 20% other type of collateral
- **Low LTV³ business portfolio; 73% of the portfolio with LTV³<80%**

LTV ³	High	Medium	Moderate	Low	Total
< 80%	92%	57%	64%	83%	73%
>80%	8%	43%	36%	17%	27%
Total	100%	100%	100%	100%	100%

1) Gross loans as at 31 December 2020 of Corporate (incl. IB and W&M and Global Corporate), SME, Retail and H/O

2) Facilities/limits approved

3) Loan to Value (LTV) is calculated as the Gross IFRS Balance to the indexed market value of the property. Under Pillar 3 disclosures LTV is calculated as the Gross IFRS Balance to the indexed market value of collateral. Collateral takes into consideration the mortgage amount registered in the land registry plus legal interest from registration date to the reference date

4) Overdrafts and current accounts have no instalment due

Portfolio exposure to businesses most impacted by COVID-19

Tourism: €1.12 bn

Hotels & Catering	30 Sep 2020 € bn	31 Dec 2020 € bn	% of portfolio

1) Exceptional items for FY2020 relate to €146 mn provisions/net loss of NPE sales including restructuring expenses, Voluntary Exit Plan cost of €6 mn, and levy in the form of guarantee fee relating to tax credits of €3 mn. For FY2019 exceptional items consist of loss from the sale of CNP Insurance of €21 mn, reversal of impairment of DTA and impairment of other tax receivables of €88 mn and provisions/net loss relating to NPE sales of €92 mn and Voluntary Exit Scheme of €81 mn including restructuring expenses

2) Including restructuring expenses

3) Excluding Special Levy and contributions to SRF and DGF

- NII for 4Q2020 at €80 mn as pressure on lending yields continues
- Non interest income for 4Q2020 increased to €62 mn, positively impacted by higher fee and commission income, as transactional volumes gradually recover post 1H2020 lockdown and higher REMU revaluation gains; non interest income for FY2020 reduced to €237 mn driven mainly by lower REMU gains negatively impacted by COVID-19 and lower revaluation gains on financial instruments and disposal/dissolution of subsidiaries and associates and other income
- Total operating expenses³ of €91 mn for 4Q2020, up 7% qoq driven mainly by higher operating expenses mainly due to seasonality; total operating expenses³ of €340 mn for FY2020, down 12% yoy, following the successful completion of a Voluntary Staff Exit Plan in 4Q2019 and lower operating expenses
- Provisions and impairments for 4Q2020 at €40 mn, including loan credit losses of €31 mn, driven mainly by the increase in provisions for litigations and other financial instruments
- Exceptional items for 4Q2020 of €51 mn relate to provisions/net loss of NPE sales² of €42 mn, cost for targeted Voluntary Exit Plan of €6 mn and DTC levy of €3 mn
- **Loss after tax of €49 mn for 4Q2020**
- **Loss after tax of €171 mn for FY2020**

Drivers of NIM

NII for 4Q2020 at €80 mn

Effective yield on assets & cost of funding

- Challenging interest rate outlook continues to put pressure on the effective yield of liquids
- Non-Legacy book yields remain under pressure mainly due to the sustained low interest rate environment and competition pressure
- Higher-yielding, higher-risk legacy loans are reducing as we successfully exit NPEs
- Reduction of cost of deposits continued (down by 1 bps qoq) to 5 bps in Dec 2020

1) Cash, placements with banks, balances with central banks and bonds

2) Other includes funding from central banks and deposits by banks and repurchase agreements. For further details, please see slide 66

3) Effective yield of liquid assets: Interest income on liquids after hedging, over average liquids (Cash and balances with central banks, placements with banks and bonds)

4) Effective yield of cost of funding: Interest expense of all interest bearing liabilities after hedging, over average interest bearing liabilities (customer deposits, funding from the central bank, interbank funding, subordinated liabilities)

5) Interest income of non-legacy book for 3Q2020 increased from €73 mn to €74 mn since previously disclosed on 27 November 2020, following a transfer of €1 mn from liquids to non-legacy interest income

Non interest income increased to €62 mn, up 11% qoq

Net fee & Commission % of Total Income

23%	26%	26%	23%	26%	27%
-----	-----	-----	-----	-----	-----

(€ mn)

■ Net FX and other income¹
■ Insurance income net of insurance claims
■ REM U²
■ Net fee & commission

 Recurring income

1) Net FX gains/(losses) & Net gains/(losses) on financial instruments, and other income

2) Gains/(losses) from revaluation and disposal of investment properties and on disposal of stock of properties

- Non interest income for FY2020 reduced to €237 mn driven mainly by lower REMU gains, revaluation gains on financial instruments and disposal/dissolution of subsidiaries and associates and other income, negatively impacted by COVID-19
- Net fee and commission income increased to €38 mn due to seasonality, higher non-transactional fees and increased economic activity post 1H2020 lockdown
- Net insurance income at €14 mn broadly flat qoq
- REMU gains² increased to €5 mn in 4Q2020 driven mainly by higher net revaluation gains relating to specific properties in Greece; REMU sales remain volatile
- Net FX and other income¹ at €5 mn flat qoq

Revenue outlook: short-term stabilisation, while building a less capital intensive revenue growth model

- Revenue remains under pressure in the near term following acceleration of balance sheet de-risking; Helix 2 reduces NII by €7 mn per quarter (slide 57); Interest on Net NPEs not received in cash, fully provided
- Multiple initiatives put in place to deliver NII and less capital intensive non interest income with focus on fees, insurance and non-banking business

NII initiatives

- TLTRO borrowing increased by €1.7 bn in Mar 2021; potential NII benefit of up to €10.6 mn for the period Mar 2021 to Jun 2022²
- Grow performing book by c.10% over the medium term
- Grow international and shipping lending
- Efforts to improve credit spreads
- Price away or price correctly deposits through liquidity fees

Fee and commission income initiatives

- Extension of liquidity fees to wider customer group as of February 2021
- Boost fee & commission income through new price list as of February 2021
- Estimated positive impact of c.€13 mn p.a. of the above initiatives
- Increase average product holding through cross selling to under-penetrated customer base
- Introduce Digital Economy Platform to generate new revenue sources, leveraging the Bank's market position, knowledge and digital infrastructure

Performing book to grow by c.10%

Total Operating Expenses down 12% yoy

Total operating expenses down 12% yoy

(€ mn)

- Staff costs of €195 mn for FY2020, down 11% yoy, reflecting the Voluntary Staff Exit Plan in 4Q2019
- Staff costs of €50 mn for 4Q2020, broadly flat qoq
- Operating expenses of €145 mn for FY2020, down 12% yoy, resulting from focus of management for cost containment and savings from 1H2020 lockdown
- Operating expenses of €41 mn for 4Q2020, up 16% qoq, due to seasonally higher marketing, property and professional fees
- Targeted Voluntary Staff Exit Plan in 4Q2020; total cost of €6 mn with a gross saving of c.€2 mn p.a. (1%)
- C/I ratio of 60%¹ for FY2020 broadly flat yoy despite cost reduction, as revenues remain under pressure

Cost to income ratio¹ at 60% for FY2020, broadly flat yoy

Special Levy and contributions to SRF and DGF (€ mn)

- Special levy and contributions to SRF and DGF for 4Q2020 reduced to €6 mn due to the seasonality of Deposit Guarantee Fund (contribution)

¹⁾ Excluding Special Levy and contributions to SRF and DGF

Cost outlook and drivers

Initiatives

- Exit solutions to release FTEs
- Further branch footprint rationalisation
- Contain restructuring costs following completion of balance sheet de-risking
- Enhance procurement control
- Reduction of total operating expenses¹ by c.10% over the medium term despite inflation

2021 Outlook

- C/I ratio¹ expected to rise in the near term as revenues remain under pressure and operating expenses increase due to higher IT/digitisation investment costs
- C/I ratio¹ to reduce to mid 50s% in the medium term

Reduction of total operating expenses¹ by c.10%

C/I ratio¹ expected to rise to mid 60s% before improving in the medium-term

Reduction of restructuring expenses to single digit as we successfully complete de-risking

1) Excluding Special Levy and contributions to SRF and DGF

Balance Sheet

Balance sheet composition

Total assets

Total equity & liabilities

1) AIEA: Average Interest Earning Assets. Please refer to slide 74 for the definition

CET1 at 15.2% pro forma for Helix 2⁵

----- min OCR (SREP) requirement for 2020 post ECB Announcement ⁴

Capital position
1 January 2021

- CET1 ratio¹ **positively** impacted by:

- c.40 bps organic capital generation from operating profitability
- c.20 bps capital benefit from amendments to capital regulations in relation to prudential treatment of software assets and IFRS 9 dynamic component
- c.20 bps from release of RWAs

- CET1 ratio¹ **negatively** impacted by:

- c.30 bps from provisions and impairments

- Onsite inspection and review by the SSM on the stock of REMU properties completed. Findings relating to a prudential charge of up to 46 bps, the majority of which is expected to be taken at 30 Jun 2021, depending on the Bank's progress in disposing the properties impacted by the prudential charge
- The Group is currently evaluating opportunities for a potential **Tier 2 capital transaction** given the terms and maturity profile of the Bank's existing €250 mn 10NC5 Tier 2 notes, subject to market conditions. Separately the Group continues to evaluate opportunities to initiate its **MREL issuance** as part of its overall capital and funding strategy

1) Allowing for IFRS 9 and starting from 3Q2020, also for temporary treatment for certain FVOCI instruments transitional arrangements
 2) The CET1 ratio for 31 December 2020, including the full impact of IFRS 9 and the temporary treatment for certain FVOCI instruments amounted to 12.9% and 13.3% pro forma for Helix 2
 3) Loan credit losses and other impairments include the net change of the prudential charges relating to specific credits and other items

4) OCR(SREP)- Overall Capital Requirement comprises the Total SREP Capital Requirement (Pillar 1 and Pillar 2 Requirement) plus combined buffer requirements (capital conservation buffer, countercyclical buffer and systemic buffers)
 5) Pro forma for Helix 2 (Portfolio A and B). Calculations on a pro forma basis which assume legal completion of the transaction

RWA intensity¹ reduced to 53%²

RWAs reduced by €1.5 bn yoy

RWAs	Dec 15	Dec 16	Dec 17	Dec 18	Dec 19	Sep 20	Dec 20	Helix 2	Helix 2 DPP ³	Pro forma ²
€ bn	19,666	18,865	17,260	15,373	12,890	11,888	11,636	(636)	381	11,381

RWA intensity¹ decreased to 53%²

- RWA is reduced by €250 mn reflecting mainly lower operational risk
- RWA intensity¹ decreased to 53% pro forma for Helix 2², down 8 p.p. yoy
- Release of RWA from Helix 2 is largely offset by the Deferred Purchase Price (DPP)

(1) Risk Weighted Assets over Total Assets

(2) Pro forma for Helix 2 (Portfolio A and B). Calculations on a pro forma basis which assume legal completion of the transaction

(3) Deferred Purchase Payment

Deposits at €16.5 bn broadly flat qoq

Cyprus deposits by passport origin³

Significant surplus liquidity of €4.2 bn

Liquidity ratio	Minimum required	30 Dec 2020	Surplus
LCR (Group)	100%	254%	€4,213 mn
NSFR ²	100%	139%	€4,751 mn

- Strong deposit market share of 35% as at 31 Dec 2020
- Flexibility to operate below 100% LCR limit at least until end 2021
- The Bank borrowed €1.7 bn from Mar 2021 TLTRO III operation with a potential NII benefit of up to €10.6 mn for the period Mar 2021 to Jun 2022⁴

1) Servicing exclusively international activity companies registered in Cyprus and abroad and not residents

2) The NSFR has not yet been introduced. The NSFR is calculated as the amount of "available stable funding" (ASF) relative to the amount of "required stable funding" (RSF), on the basis of Basel III standards. Its calculation is a SREP requirement. The EBA NSFR will be enforced as a regulatory ratio under CRR II in June 2021

3) Origin is defined as the country of passport by the Ultimate Beneficiary Owner

4) Based on current ECB rates and provided the lending thresholds set by ECB are met

Asset Quality

€1.4 bn NPE sales agreed since Dec 2019, reducing NPE ratio to 16%¹

Helix 2 Portfolio B

- Agreement for the sale of €529 mn NPEs (with reference date 30 Sep 2020) in Jan 2021
- Gross consideration of 44% of gross book value (based on 30 Sep 2020) and 31% of contractual balance³, payable in cash, of which 50% is deferred unconditionally up to Dec 2025
- Loan credit losses of €27 mn recorded in 4Q2020

Helix 2 Portfolio A

- Agreement for the sale of €886 mn NPEs (with reference date 30 Jun 2020) in Aug 2020
- Gross consideration of 46% of gross book value (based on 30 Jun 2020) and 29% of contractual balance³, payable in cash, of which 65% is deferred unconditionally to 3 broadly equal instalments over 48 months
- Loss of €68 mn recorded in 2Q2020

43% NPE reduction

NPEs (€ bn)

9 p.p. reduction in NPE ratio

NPE ratio

CET1 ratio at 15.2%² pro forma for Helix 2¹

Total CET1 impact +24 bps:

- 76 bps already included in FY2020
- +34 bps on completion
- +66 bps upon full payment of deferred consideration

(1) Calculations on a pro forma basis assume legal completion of both Helix 2 Portfolio A and Helix 2 Portfolio B

(2) Allowing for IFRS 9 and temporary treatment for certain FVOCI instruments transitional arrangements

(3) As at 30 September 2019

(4) Deferred Purchase Price

NPE ratio reduced to 16% pro forma for Helix 2; Coverage maintained at 59%

€2.1 bn NPE reduction in FY2020 pro forma for Helix 2¹

Gross NPE ratio reduced to 16%; 7% on a net basis

- 1) Calculations on a pro forma basis assume legal completion of both Helix 2 Portfolio A and Helix 2 Portfolio B
 2) Restricted to Gross IFRS balance
 3) In pipeline to exit NPEs subject to meet all exit criteria; the analysis is performed on a customer basis (formerly called Non-core NPEs)

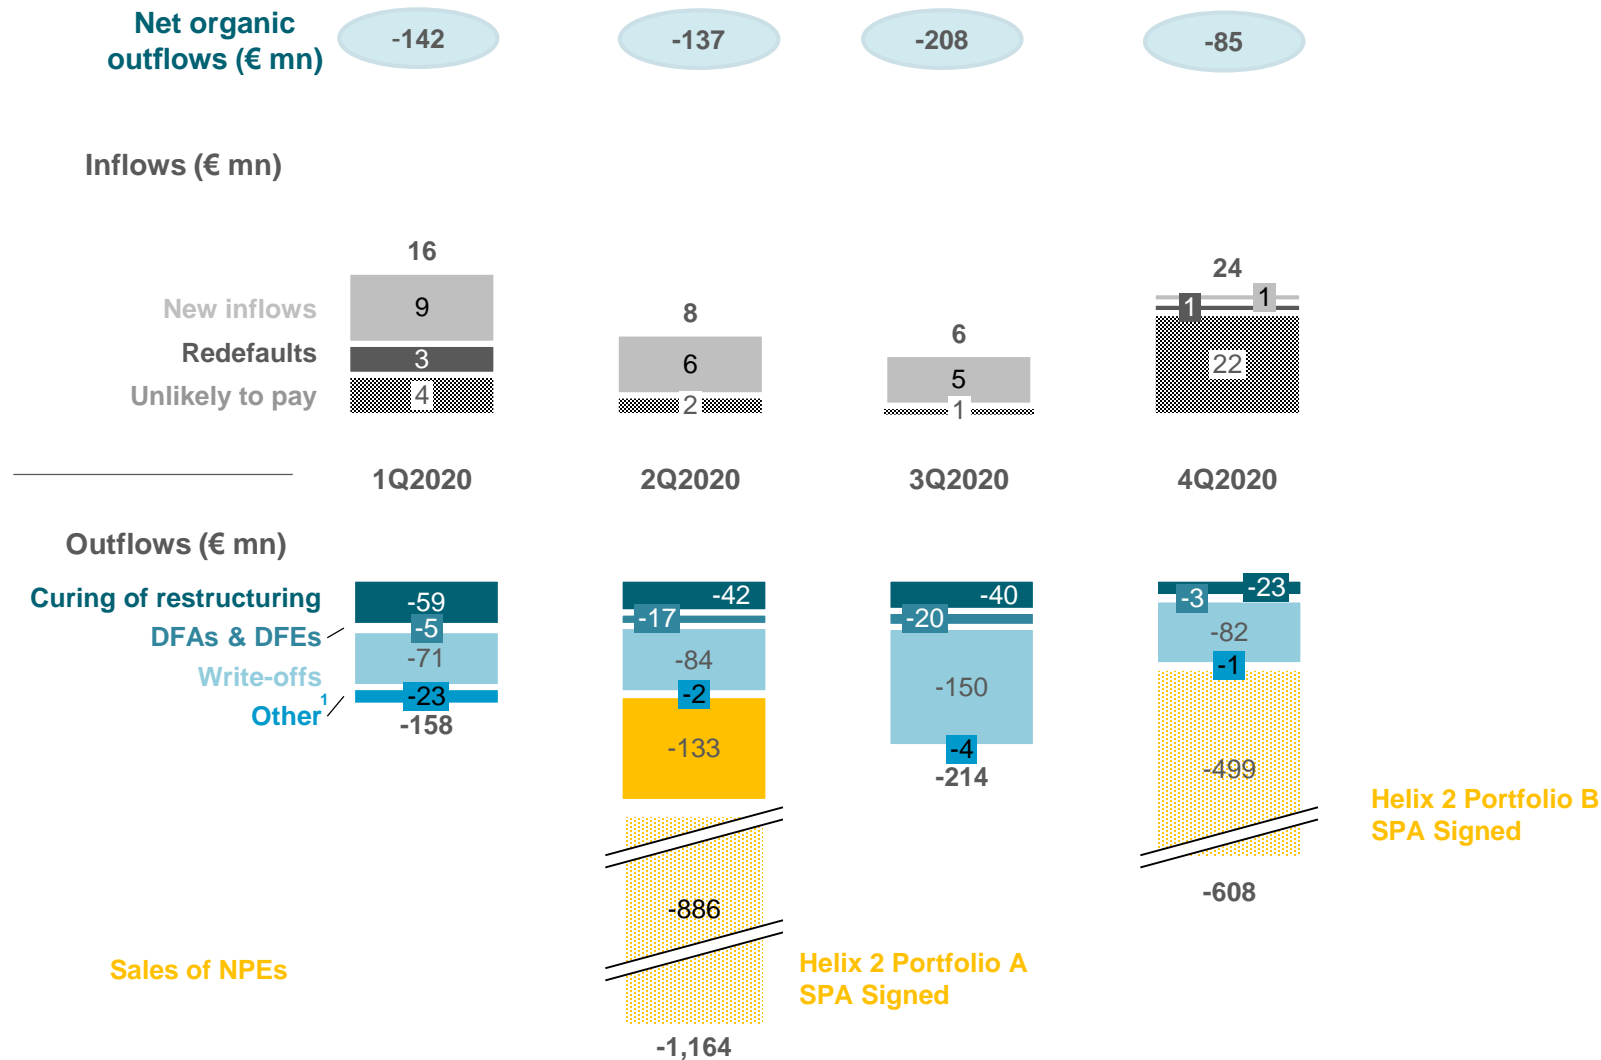

Residual NPEs comprises mainly Retail

NPE coverage maintained at 59% post Helix 2

€109 mn organic NPE outflows in 4Q2020, leading to €85 mn organic NPE reduction

- €22 mn marked as UTP in 4Q2020, arising from the completion of campaign review of the loans under payment deferrals until Dec 2020
- Organic NPE reduction of €0.6 bn for FY2020
- Additionally there were €67 mn NPE reduction relating to NPE sales lockbox (3Q2020: €22 mn)
- NPE sales reduce NPEs further by €1.5 bn

1) Other includes interest, cash collections and changes in balances

De-risking: Clear path to reduce NPE ratio to single digit by 2022

- Gross NPE reduction in 2021, through both organic and inorganic actions, expected to more than offset NPE inflows
- Continue to assess potential to accelerate NPE reduction through additional NPE sales

1) Calculations on a pro forma basis assume legal completion of both Helix 2 Portfolio A and Helix 2 Portfolio B

Gross loans and coverage by IFRS 9 staging

Gross loans by IFRS 9 stage (€ mn)

Allowance for expected loan credit losses (€ mn)

Coverage ratio

	Dec 19	Sep 20	Dec 20	Dec 20 pro forma for Helix 2 ¹
Stage 1	1.2%	1.5%	1.4%	1.3%
Stage 2	2.5%	2.7%	3.3%	2.8%
Stage 3	50.6%	54.7%	56.1%	49.9%

- Coverage for stage 3 loans remains at c.50% post Helix 2
- Net transfer of c.€300 mn loans from stage 1 to stage 2 as a result of the significant increase in credit risk and management overlays
- €22 mn marked as UTP in 4Q2020, arising from the completion of campaign review of the loans under payment deferrals until December 2020

1) Calculations on a pro forma basis assume legal completion of both Helix 2 Portfolio A and Helix 2 Portfolio B

Cost of risk¹ of 118 bps for FY2020, as expected

Base line	GDP rate	Unemployment rate
2020	-5.8%	7.1%
2021	4.0%	7.4%
2022	3.9%	6.3%

- Cost of risk of 118 bps for FY2020 (€149 mn), of which 43 bps (€54 mn) reflect the impact of IFRS 9 Forward Looking Information (FLI) driven by deterioration of macroeconomic outlook recognised in FY2020
- Cost of risk of 99 bps for 4Q2020 (€31 mn), of which 37 bps (€11 mn) COVID-19 related
- Interest on net NPEs not received in cash, fully provided (€13 mn in 4Q2020)

¹ Loan credit losses charge (cost of risk) (year to date) is calculated as the annualised 'loan credit losses' (as defined) divided by average gross loans. The average gross loans are calculated as the average of the opening balance and the closing balance for the reporting period/year.

REMU: Asset disposal strategy tackles both value and volume of assets

REMU stock broadly flat at c.€1.5 bn

Group BV (€ mn)

c.€1.1 bn REMU sales (Book Value) since 2017

Group BV (€ mn)

€91 mn sales in FY2020, comfortably above Book Value

Sales contract prices² – Organic (€ mn)

- FY2020 sales impacted by 1H2020 lockdown
- Asset disposals across all property classes
- Visible pipeline for €53 mn (SPAs signed) as at 31 Dec 2020
- Offers accepted for €28 mn as at 31 Dec 2020

1) In addition to assets held by REMU, properties classified as "Investment properties" with carrying value of €21 mn as at 31 December 2020 relate to legacy properties

2) Amounts as per Sales purchase Agreements (SPAs)

3) Additions include €21 mn transfer from own properties

4) Stock of property with a carrying value of €59 mn as at 31 December 2020 was transferred to non-current assets and disposal groups held for sale as it was included in the Helix 2 (both portfolios A & B)

1) #SupportCY is a network of 93 companies and NGOs, initiated by Bank of Cyprus, during March 2020, with the aim to support the public services performing frontline duties during the Pandemic and the Society, in general

2) Please refer to slide 76 in the definitions

Leverage leading Digital Capabilities to serve customers and the economy

Vision

Leverage technology to sustain a competitive advantage through digital banking

Serve customer needs anywhere and at any time, through an agile technology ecosystem

Be the driver of digital economy, in support of national efforts for structural economic reform

Creating shareholder value

- Improving operational efficiency through:
 - further automation
 - further branch rationalisation
- Opportunities to cross-sell through:
 - modelling customers' needs and behaviours
 - offering tailored products and services

Digital Transactions ratio¹

Dec 2019	Dec 2020

	RWA Intensity ²	48%	106%	54%
		Global corporate, Corporate IB, W&M	RRD	
		SME and Retail Banking	REMU	
			Overseas non core	

- Non-Legacy Book is expected to grow and to increasingly drive Group results
- Legacy book revenues predominantly driven by loan credit losses unwinding (but offset via loan credit losses)
- Interest on Net NPEs not received in cash, fully provided (€13 mn in 4Q2020)
- As Legacy book reduces:
 - Group risk adjusted yield expected to rise
 - Group Risk intensity expected to fall supporting CET1 ratio build

1) Interest Income on loans net of allowance for expected loan credit losses/ Average Net Loans

2) Risk Weighted Assets over Total Assets

3) A reclassification of €12 mn between legacy and non legacy loan credit losses for the 9M2020 was performed to align with the presentation on slide 78 of the 9M2020 FR presentation hence bringing the total credit losses for the FY2020 of the non-legacy book to €18 mn and the legacy book to €100 mn

3) Calculations on a pro forma basis assume legal completion of both Helix 2 Portfolio A and Helix 2 Portfolio B

SREP and MREL requirements

SREP requirements for 2020: CET1 ratio at 9.7%

SREP requirements for 2020 : Total Capital ratio at 14.5%

MREL requirements

- In Feb 2021, the Bank received notification from the Single Resolution Board (SRB) of the draft decision for the binding minimum requirement for own funds and eligible liabilities (MREL) for the Bank, determined as the preferred resolution point of entry. As per the draft decision, the minimum MREL requirement is set at 23.32% of RWAs and 5.91% of Leverage Ratio Exposure (LRE) and must be met by 31 Dec 2025. Furthermore, the Bank must comply by 1 Jan 2022 with an interim requirement of 14.94% of RWAs and 5.91% of LRE. The own funds used by the Bank to meet the Combined Buffer Requirement (CBR) will not be eligible to meet its MREL requirements expressed in terms of RWAs. Once the above-mentioned decision becomes final (expected end of Mar/early Apr 2021), these requirements will replace those that were previously applicable
- The MREL ratio of the Bank as at 31 Dec 2020, calculated according to SRB's eligibility criteria currently in effect and based on the Bank's internal estimate, stood at 15.36% of RWAs (and at 14.92% of RWAs as at 1 Jan 2021) and at c.10% of LRE (and at c.10% of LRE as at 1 Jan 2021). Pro forma for Project Helix 2, the MREL ratio of the Bank as at 31 Dec 2020, calculated on the same basis, stood at 15.80%³ of RWAs (and at 15.35%³ of RWAs as at 1 Jan 2021). The MREL ratio expressed as % of RWAs does not include the capital used to meet the CBR amount, currently at 3.5% and expected to increase to 4% on 1 Jan 2022
- The MREL requirement per the draft decision is in line with the Bank's expectations and funding plans
- The Group is currently evaluating opportunities for a potential **Tier 2** capital transaction given the terms and maturity profile of the Bank's existing €250 mn 10NC5 Tier 2 notes, subject to market conditions. Separately the Group continues to evaluate opportunities to initiate its **MREL issuance** as part of its overall capital and funding strategy

1) The Central Bank of Cyprus (CBC) set the O-SII buffer for the Group at 2%. This buffer will be phased-in gradually, having started from 1 January 2019 at 0.5% and increasing by 0.5% every year thereafter, until being fully implemented (2.0%) on 1 January 2022. In April 2020 the CBC, as part of the COVID measures, decided to delay the phasing-in by 12 months (1 January 2023). As a result, the phasing-in of 0.5% on 1 January 2021 has been delayed for 12 months

2) In accordance with the legislation in Cyprus which has been set for all credit institutions the applicable rate of the CCB was fully phased in at 2.5% in 2019

3) Calculations on a pro forma basis assume legal completion of both Helix 2 Portfolio A and Helix 2 Portfolio B

Buffer to MDA Restrictions Level & Distributable Items¹

Maximum Distributable Amount for BOCH

- The Bank and BOCH having obtained approval by their shareholders, the ECB and the Court of Cyprus and Irish High Court respectively, implemented a capital reduction process in Oct 2020, which resulted in the reclassification of c.€619 mn and €700 mn of share premium to distributable reserves respectively
- No prohibition applies to the payment of coupons on any AT1 capital instruments issued by the Company and the Bank²
- Significant CET1 MDA buffer³ (31 Dec 2020) : c.385 bps (c.€448 mn)

1) Distributable Items definition per CRR

2) Based on the SREP decisions of prior years, the Company and the Bank were under a regulatory prohibition for equity dividend distribution and therefore no dividends were declared or paid during years 2019 and 2018. Following the 2019 SREP decision, which will continue to be in effect in 2021, the Company and the Bank are still under equity dividend distribution prohibition. This prohibition does not apply if the distributions are made via the issuance of new ordinary shares to the shareholders which are eligible as CET1 capital

3) Including phasing in of O-SII buffer (+50 bps). The Central Bank of Cyprus (CBC) set the O-SII buffer for the Group at 2%. This buffer will be phased-in gradually, having started from 1 January 2019 at 0.5% and increased by 0.5% every year thereafter, until being fully implemented on 1 January 2022. In April 2020 the CBC, as part of the COVID measures, decided to delay the phasing-in by 12 months (1 January 2023). As a result, the phasing-in of 0.5% on 1 January 2021 has been delayed for 12 months

Reduction in Overseas Non-Core Exposures

Overseas non-core exposures (€ mn)

- The Group continues its efforts for further deleveraging and disposal of non-essential assets and operations in Greece, Romania and Russia
- In addition as at 31 Dec 2020, there were €270 mn of overseas exposures in Greece (€270 mn at 30 September 2020) not identified as non-core exposures

APPENDIX

Glossary & Definitions

Glossary & Definitions

Allowance for expected loan credit losses (previously 'Accumulated provisions')	Comprises (i) allowance for expected credit losses (ECL) on loans and advances to customers (including allowance for expected credit losses on loans and advances to customers held for sale), (ii) the residual fair value adjustment on initial recognition of loans and advances to customers, (iii) allowance for expected credit losses for off-balance sheet exposures (financial guarantees and commitments) disclosed on the balance sheet within other liabilities, and (iv) the aggregate fair value adjustment on loans and advances to customers classified and measured at FVPL.
Advisory and other restructuring costs	Comprise mainly: fees of external advisors in relation to: (i) disposal of operations and non-core assets, and (ii) customer loan restructuring activities.
AIEA	This relates to the average of 'interest earning assets' as at the beginning and end of the relevant quarter. Average interest earning assets exclude interest earning assets of any discontinued operations at each quarter end, if applicable. Interest earning assets include: cash and balances with central banks, plus loans and advances to banks, plus net loans and advances to customers (including loans and advances to customers classified as non-current assets held for sale), plus investments (excluding equities and mutual funds).
AT1	AT1 (Additional Tier 1) is defined in accordance with Articles 51 and 52 of the Capital Requirements Regulation (EU) No 575/2013, as amended by CRR II applicable as at the reporting date
Average contractual interest rates	Interest rates on cost of deposits were previously calculated as the Interest Expense over Average Balance. The current calculation which the Bank considers more appropriate is based on the weighted average of the contractual rate times the balance at the end of the month. The rates are calculated based on the month end contractual interest rates. The quarterly rates are the average of the three quarter month end contractual rates.
Book Value	BV= book value = Carrying value prior to the sale of property.
CET1 capital ratio (transitional basis)	CET1 capital ratio (transitional basis) is defined in accordance with the Capital Requirements Regulation (EU) No 575/2013, as amended by CRR II applicable as at the reporting date.
CET1 fully loaded (FL)	The CET1 fully loaded (FL) ratio is defined in accordance with the Capital Requirements Regulation (EU) No 575/2013, as amended by CRR II applicable as at the reporting date.
Cost of Funding	Effective yield of cost of funding: Interest expense of all interest bearing liabilities after hedging, over average interest bearing liabilities (customer deposits, funding from the central bank, interbank funding, subordinated liabilities). Historical information has been adjusted to take into account hedging.
Contribution to DGF	Relates to the contribution made to the Deposit Guarantee Fund.
Contribution to SRF	Relates to the contribution made to the Single Resolution Fund.
Cost to Income ratio	Cost-to-income ratio comprises total expenses (as defined) divided by total income (as defined).
Cost of Risk	Loan credit losses charge (cost of risk) (year to date) is calculated as the annualised 'loan credit losses' (as defined) divided by average gross loans. The average gross loans are calculated as the average of the opening balance and the closing balance, for the reporting period/year.
CRR DD	Default Definition.
DFAs	Debt for Asset Swaps.
DFEs	Debt for Equity Swaps.
DTA	Deferred Tax Assets.

Glossary & Definitions

Digitally engaged customers ratio	This is the ratio of digitally engaged individual customers to the total number of individual customers. Digitally engaged customers are the individuals who use the digital channels of the Bank (mobile banking app, browser and ATMs) to perform banking transactions, as well as digital enablers such as a bank-issued card to perform online card purchases, based on an internally developed scorecard.
Digital transactions ratio	This is the ratio of the number of digital transactions performed by individuals and legal entity customers to the total number of transactions. Transactions include deposits, withdrawals, internal and external transfers. Digital channels include mobile, browser and ATMs.
DTC	Deferred Tax Credit
EBA	European Banking Authority
ECB	European Central Bank
Effective yield	Interest Income on Loans/Average Net Loans
Effective yield of liquid assets	Interest Income on liquids after hedging, over average liquids (Cash and balances with central banks, placements with banks and bonds). Historical information has been adjusted to take into account hedging
ESMA	European Securities and Markets Authority
Foreclosures	Value of on-boarded assets is set at a conservative 25%-30% discount from open market valuations, by two independent sources; Includes consensual and non consensual DFAs and DFEs
FTP	Fund transfer pricing methodologies applied between the business lines to present their results on an arm's length basis
GBV	Gross Book Value
Gross Loans	<p>Gross loans comprise: (i) gross loans and advances to customers measured at amortised cost before the residual fair value adjustment on initial recognition (including loans and advances to customers classified as non-current assets held for sale) and (ii) loans and advances to customers classified and measured at FVPL adjusted for the aggregate fair value adjustment</p> <p>Gross loans are reported before the residual fair value adjustment on initial recognition relating mainly to loans acquired from Laiki Bank (calculated as the difference between the outstanding contractual amount and the fair value of loans acquired) amounting to €230 mn at 31 December 2020 (compared to €243 mn at 30 September 2020 and €271 mn at 31 December 2019).</p> <p>Additionally, gross loans include loans and advances to customers classified and measured at fair value through profit or loss adjusted for the aggregate fair value adjustment of €326 mn at 31 December 2020 (compared to €334 mn at 30 September 2020 and €427 mn at 31 December 2019).</p>
Gross Sales Proceeds	Proceeds before selling charge and other leakages
GVA	Gross Value Added
Group	The Group consists of Bank of Cyprus Holdings Public Limited Company, “BOC Holdings” or the “Company”, its subsidiary Bank of Cyprus Public Company Limited, the “Bank” and the Bank’s subsidiaries.
H/O	Head Office

Glossary & Definitions

IB, W&M	International Banking, Wealth and Markets
IBU	Servicing exclusively international activity companies registered in Cyprus and abroad and not residents
Legacy exposures	Legacy exposures are exposures relating to (i) Restructuring and Recoveries Division (RRD), (ii) Real Estate Management Unit (REMU), and (iii) non-core overseas exposures.
Loan credit losses (PL) (previously 'Provision charge')	Loan credit losses comprise: (i) credit losses to cover credit risk on loans and advances to customers, (ii) net gains on derecognition of financial assets measured at amortised cost and (iii) net gains on loans and advances to customers at FVPL, for the reporting period/year.
Loan to Value ratio (LTV)	Loan to Value (LTV) is calculated as the Gross IFRS Balance to the indexed market value of the property. Under Pillar 3 disclosures LTV is calculated as the Gross IFRS Balance to the indexed market value of collateral. Collateral takes into consideration the mortgage amount registered in the land registry plus legal interest from registration date to the reference date
Market shares	<p>Both deposit and loan market shares are based on data from the CBC.</p> <p>The Bank is the single largest credit provider in Cyprus with a market share of 41.9% at 31 December 2020, compared to 41.5% at 30 September 2020, 41.7% at 30 June 2020, 41.0% at 31 March 2020, 41.1% at 31 December 2019, 40.8% at 30 September 2019, 41.3% at 30 June 2019, 46.7% at 31 March 2019, 45.4% at 31 December 2018 and as at 30 September 2018, 38.6% at 30 June 2018 and 37.4% at 31 March 2018.</p> <p>The market share on loans was affected as at 30 June 2019 following the derecognition of the Helix portfolio upon the completion of Project Helix announced on 28 June 2019.</p> <p>The market share on loans was affected during the quarter ended 31 March 2019 following a decrease in total loans in the banking sector of €1 bn, mainly attributed to reclassification, revaluation, exchange rate and other adjustments (CBC).</p> <p>The market share on loans was affected as at 30 September 2018 following a decrease in total loans in the banking sector, mainly attributed to €6 bn non-performing loans of Cyprus Cooperative Bank (CyCB) which remained to SEDIPES as a result of the agreement between CyCB and Hellenic Bank.</p> <p>The market share on loans was affected as at 30 June 2018 following a decrease in total loans in the banking sector of €2.1 bn, due to loan reclassifications, revaluations, exchange rate or other adjustments (CBC).</p>
MSCI ESG Rating	The use by the Bank of any MSCI ESG Research LLC or its affiliates ('MSCI') data, and the use of MSCI Logos, trademarks, service marks or index names herein, do not constitute a sponsorship, endorsement, recommendation or promotion of the Bank by MSCI. MSCI Services and data are the property of MSCI or its information providers and are provided "as-is" and without warranty. MSCI Names and logos are trademarks or service marks of MSCI.
Net Proceeds	Proceeds after selling charges and other leakages
Net fee and commission income over total income	Fee and commission income less fee and commission expense divided by total income (as defined).
Net interest margin (NIM)	Net interest margin is calculated as the net interest income (annualised) divided by the 'quarterly average interest earning assets' (as defined).
Net loans and advances to customers	Net loans and advances to customers comprise gross loans (as defined) net of allowance for expected loan credit losses (as defined, but excluding allowance for expected credit losses on off-balance sheet exposures disclosed on the balance sheet within other liabilities).

Glossary & Definitions

Net loans to deposits ratio	Net loans to deposits ratio is calculated as gross loans (as defined) net of allowance for expected loan credit losses (as defined) divided by customer deposits.
New lending	New lending includes the disbursed amounts of the new and existing non-revolving facilities (excluding forbore or re-negotiated accounts) as well as the average year to date change (if positive) of the current accounts and overdraft facilities between the balance at the beginning of the period and the end of the period. Recoveries are excluded from this calculation since their overdraft movement relates mostly to accrued interest and not to new lending.
Non-interest income	Non-interest income comprises Net fee and commission income, Net foreign exchange gains and net gains on financial instrument transactions and disposal/dissolution of subsidiaries and associates (excluding net gains on loans and advances to customers at FVPL), Insurance income net of claims and commissions, Net gains/(losses) from revaluation and disposal of investment properties and on disposal of stock of properties, and Other income.
Non-recurring items	Non-recurring items as presented in the 'Unaudited Consolidated Income Statement – Underlying basis' relate to the following items, as applicable: (i) advisory and other restructuring costs - organic, (ii) restructuring costs – Voluntary Staff Exit Plan (VEP), (iii) Provisions/net loss relating to NPE sales, including restructuring expenses, (iv) (DTC levy)/reversal of impairment of DTA and impairment of other tax receivables and (v) Loss on remeasurement of investment in associate upon classification as held for sale (CNP) net of share of profit from associates (for the year ended 31 December 2019 only).
NPEs	<p>According to the EBA standards and ECB's Guidance to Banks on Non-Performing loans, NPEs are defined as those exposures that satisfy one of the following conditions:</p> <ul style="list-style-type: none"> (i) The borrower is assessed as unlikely to pay its credit obligations in full without the realisation of the collateral, regardless of the existence of any past due amount or of the number of days past due. (ii) Defaulted or impaired exposures as per the approach provided in the CRR, which would also trigger a default under specific credit adjustment, distress restructuring and obligor bankruptcy. (iii) Material exposures as set by the CBC, which are more than 90 days past due. (iv) Performing forbore exposures under probation for which additional forbearance measures are extended. (v) Performing forbore exposures under probation that present more than 30 days past due within the probation period. <p>Exposures include all on and off balance sheet exposures, except those held for trading, and are categorised as such for their entire amount without taking into account the existence of collateral.</p> <p>The following materiality criteria are applied:</p> <ul style="list-style-type: none"> • When a specific part of the exposures of a customer that fulfils the NPE criteria set out above is greater than 20% of the gross carrying amount of all on balance sheet exposures of that customer, then the total customer exposure is classified as non-performing; otherwise only the problematic part of the exposure is classified as non-performing. • If a non-retail debtor has an exposure with significant arrears of more than 90 days, the total customer exposure is classified as non-performing, irrespective of the 20% threshold. • Material arrears/excesses are defined as follows: <ul style="list-style-type: none"> - Retail exposures: Total arrears/excesses amount greater than €100 - Exposures other than retail: Total arrears/excesses are greater than €500 and the amount in arrears/excess in relation to the customer's total exposure is at least 1%. • If unlikelihood to pay is not identified at an earlier stage, it is deemed to occur when an exposure is 90 days past due, even where regulatory rules permit default to be defined based on 180 days past due. • The definitions of credit impaired and default are aligned so that stage 3 represents all loans which are considered defaulted or otherwise credit impaired. • When a financial asset has been identified as credit impaired, ECLs are measured as the difference between the asset's gross carrying amount and the present value of estimated future cash flows discounted at the instrument's original effective interest rate.

Glossary & Definitions

NPEs (continued)	<p>NPEs may cease to be considered as non-performing only when all of the following conditions are met:</p> <ul style="list-style-type: none"> (i) The extension of forbearance measures does not lead to the recognition of impairment or default. (ii) One year has passed since the forbearance measures were extended. (iii) Following the forbearance measures and according to the post-forbearance conditions, there is no past due amount or concerns regarding the full repayment of the exposure. (iv) No unlikely-to-pay criteria exist for the debtor. (v) The debtor has made post-forbearance payments of a non-insignificant amount of capital (different capital thresholds exist according to the facility type). <p>Non-performing non-forborne exposures cease to be considered as NPEs and in such case are transferred out of Stage 3, only when all conditions for which the exposures were classified originally as NPEs, cease to apply.</p> <p>When an account exits Stage 3, it is transferred to Stage 2 for a probationary period of 6 months. At the end of this period, the significant increase in credit risk (SICR) trigger is activated and the loan is either transferred to Stage 1 or remains in Stage 2. The reversal of previous unrecognised interest on loans and advances to customers that no longer meet Stage 3 criteria is presented in 'Credit losses to cover credit risk on loans and advances to customers'.</p> <p>New default definition effective from 1 January 2021</p> <p>From 1 January 2021 two regulatory guidelines came into force that affect NPE classification and Days-Past-Due calculation. More specifically, these are the RTS on the Materiality Threshold of Credit Obligations Past Due (EBA/RTS/2016/06), and the Guideline on the Application of the Definition of Default under article 178 (EBA/RTS/2016/07).</p> <p>As a result of the above, the following changes came into effect as from 1 January 2021:</p> <ol style="list-style-type: none"> 1. New Days-past-Due (DPD) counter: The new counter will begin counting DPD as soon as the arrears or excesses of an exposure reach the materiality threshold (rather than the first day of presenting any amount of arrears in excesses). Similarly, the counter will be set to zero when the arrears or excesses drop below the materiality threshold. Payments towards the exposure that do not reduce the arrears/excesses below the materiality threshold, will not impact the counter. 2. Additionally to the above criteria for the exit of non-performing exposures the following condition should also be met: A period of one year has passed since the latest of the following events: <ol style="list-style-type: none"> a. The restructuring date b. The date the exposure was classified as non-performing c. The payment of interest and capital for at least 12 months 3. Non-performing non-forborne exposures cease to be considered as NPEs only when all of the following conditions are met: <ul style="list-style-type: none"> (i) a three-month probation period has passed (ii) no trigger of default continues to apply (iii) no unlikely-to-pay criteria exist for the debtor 4. As per the new definition of default, the 20% materiality threshold and the 90 days past due counter, will no longer apply for non-retail exposures i.e. any non-performing exposure of the customer, for any reason, will result in a non-performing classification at customer level.
NPE coverage ratio (previously 'NPE Provisioning coverage ratio')	The NPE coverage ratio is calculated as the allowance for expected loan credit losses (as defined) over NPEs (as defined).
NPE ratio	NPEs ratio is calculated as the NPEs as per EBA (as defined) divided by gross loans (as defined).
NPEs sales	NPE sales refer to sales of NPE portfolios completed in each period and contemplated sale transactions, as well as potential further NPE sales, at each reporting date, irrespective of whether or not they met the held for sale classification criteria at the reporting dates. They include both Project Helix and Project Helix 2, as well as other portfolios.

Glossary & Definitions

Non-legacy	Relates to all business lines excluding Restructuring and Recoveries Division ("RRD"), REMU and non-core overseas exposures
Phased-in Capital Conservation Buffer (CCB)	In accordance with the legislation in Cyprus which has been set for all credit institutions, the applicable rate of the CCB is 1.25% for 2017, 1.875% for 2018 and 2.5% for 2019 (fully phased-in).
NSFR	The NSFR is calculated as the amount of "available stable funding" (ASF) relative to the amount of "required stable funding" (RSF), on the basis of Basel III standards. Its calculation is a SREP requirement. The EBA NSFR will be enforced as a regulatory ratio under CRR II in June 2021.
OMV	Open Market Value
Operating profit	The operating profit comprises profit before Total loan credit losses, impairments and provisions (as defined), tax, (profit)/loss attributable to non-controlling interests and non-recurring items (as defined).
p.p.	percentage points
Project Helix 2	Project Helix 2 refers to the portfolio of loans with a gross book value of €898 mn as at 30 June 2020 for which an agreement for sale was reached in August 2020 (Portfolio A) and to the portfolio of loans with a gross book value of €545 mn as at 30 September 2020 for which an agreement for sale was reached in January 2021 (Portfolio B). For further information please refer to section B.2.5 Loan portfolio quality of the press release.
Qoq	Quarter on quarter change
Restructured loans	Restructuring activity within quarter as recorded at each quarter end and includes restructurings of NPEs, performing loans and re-restructurings.
Risk adjusted yield	Interest Income on Loans net of allowance for expected loan credit losses/Net Loans.
RRD	Restructuring and Recoveries Division.
RWAs	Risk Weighted Assets.
RWA Intensity	Risk Weighted Assets over Total Assets.
Special levy	Relates to the special levy on deposits of credit institutions in Cyprus.
Stage 2 & Stage 3 Loans	Include purchased or originated credit-impaired.

Glossary & Definitions

Tangible Collateral	Restricted to Gross IFRS balance.
Total Capital ratio	Total capital ratio is defined in accordance with the Capital Requirements Regulation (EU) No 575/2013, as amended by CRR II applicable as at the reporting date.
Total expenses	Total expenses comprise staff costs, other operating expenses and the special levy and contributions to the Single Resolution Fund (SRF) and Deposit Guarantee Fund (DGF). It does not include (i) 'advisory and other restructuring costs-organic', or (ii) any restructuring costs relating to NPE sales, or (iii) any restructuring costs relating to the Voluntary Staff Exit Plan, or (iv) the DTC levy. (i) 'Advisory and other restructuring costs-organic' amounted to €1 mn for 4Q2020 (compared to €3 mn for 3Q2020, €3 mn for 2Q2020, €3 mn for 1Q2020 and €8 mn for 4Q2019). (ii) Restructuring costs relating to NPE sales amounted to c.€1.5 mn for 4Q2020 (compared to Nil for 3Q2020, €1 mn for 2Q2020, €3 mn for 1Q2020 and €10 mn for 4Q2019). (iii) Restructuring costs relating to the Voluntary Staff Exit Plan amounted to €6 mn for 4Q2020 and FY2020 (compared to €81 mn for 4Q2019 and FY2019). (iv) The DTC levy amounted to €3 mn for 4Q2020 and FY2020 (compared to nil for FY2019).
Total income	Total income comprises net interest income and non-interest income (as defined).
Total loan credit losses, impairments and provisions	Total loan credit losses, impairments and provisions comprises loan credit losses (as defined), plus impairments of other financial and non-financial assets, plus provisions for litigation, claims, regulatory and other matters.
T2	Tier 2 Capital
Underlying basis	This refers to the statutory basis after being adjusted for certain items as explained in the Basis of Presentation.
Write offs	Loans together with the associated loan credit losses are written off when there is no realistic prospect of future recovery. Partial write-offs, including non-contractual write-offs, may occur when it is considered that there is no realistic prospect for the recovery of the contractual cash flows. In addition, write-offs may reflect restructuring activity with customers and are part of the terms of the agreement and subject to satisfactory performance.
Yoy	Year on year change
