Market leading full service bank in Cyprus
Substantial improvement on Key Balance Sheet metrics

**€5.5 bn balance sheet deleveraging**
- Dec 2014: 26.8
- Jun 2020: 21.3

**€12.4 bn reduction in NPEs since peak**
- Dec 2014: 15.0
- Jun 2020: 3.5
- Jun 2020 pro forma for Helix 2: 2.6

**c.€11 bn reduction in RWAs**
- Dec 2014: 22.7
- Jun 2020: 12.0
- Jun 2020 pro forma for Helix 2: 11.8

**L/D ratio**
- Dec 2014: 141%
- Jun 2020: 64%
- Jun 2020 pro forma for Helix 2: 62%

**Customer deposits as % of total assets**
- Dec 2014: 49%
- Jun 2020: 76%
- Jun 2020 pro forma for Helix 2: 76%

**Good capital position above regulatory requirements**
- CET1
  - Dec 2014: 14.0%
  - Jun 2020: 14.3%
  - Jun 2020 pro forma for Helix 2: 14.4%

**NPEs reduced by 83% since 2014**
**Funding stack normalisation with a deposit funded asset base**
**Strengthened capital position relative to balance sheet risk profile**

---

(1) Agreement for the sale of €0.9 bn NPEs in August 2020. Calculations on a pro forma basis assume completion of the transaction.
(2) Allowing for transitional arrangements.
(3) OCR(SREP): Overall Capital Requirement comprises the Total SREP Capital Requirement (Pillar 1 and Pillar 2 Requirement) plus combined buffer requirements (capital conservation buffer, countercyclical buffer and systemic buffers).
1H2020 - Highlights

COVID-19

- Confirmed COVID-19 cases remain amongst the lowest within EU, despite relaxation of measures
- Continue to support colleagues, customers affected by COVID-19 and wider Cypriot economy
- Nascent signs of economic recovery post lockdown

€1.3 bn NPE reduction in 1H2020, including NPE sales

- €0.9 bn NPE sale (Helix 2) agreed in August 2020
- Organic NPE reduction of €137 mn in 2Q2020, despite lockdown
- Completion of €133 mn NPE sale (Velocity 2) in 2Q2020
- NPEs reduced to €2.6 bn (€1.1 bn net), pro forma for Helix 2¹
- Gross NPE ratio reduced to 22% (11% net) and coverage maintained at 58%, pro forma for Helix 2¹

Good Capital and Strong Liquidity Position

- Total Capital ratio of 17.9%² and CET1 ratio of 14.4%² pro forma for Helix 2¹
- Deposits at €16.3 bn, broadly flat qoq; significant surplus liquidity of €3.9 bn (LCR at 257%)

Operational efficiency

- Cost to income ratio³ at 57% for 2Q2020, broadly flat on prior quarter
- Total operating expenses³ reduced to €81 mn for 2Q2020, down by 18% yoy and by 3% qoq
- Increased usage of digital channels sustained post lockdown

Performance in 2Q2020

- New lending of €238 mn for 2Q2020 (down by 47% qoq), impacted by COVID-19 lockdown
- Underlying result of profit after tax from organic operations of €4 mn for 2Q2020
- Provisions/net loss relating to NPE sales⁴ of €104 mn for 2Q2020, including Helix 2 loss of €68 mn and loan credit losses of €21 mn for potential future NPE sales
- Loss after tax of €100 mn for 2Q2020 and €126 mn for 1H2020

(1) Calculations on a pro forma basis assume completion of the transaction
(2) Allowing for IFRS 9 transitional arrangements
(3) Excluding Special Levy and contributions to SRP and DGF
(4) Including restructuring expenses
Timely and strong response by the European and the Cypriot authorities

Comprehensive and far reaching measures to support performing businesses and the wider economy

Government measures include:

1. Subsidy of interest rate of new Business Loans (€180 mn)
   • Subsidy of interest rate for new loans to self employed and businesses
   • Subsidy of interest rate for 4 years

2. Subsidy of interest rate of new Housing Loans (€45 mn)
   • Subsidy of interest for 4 years

3. Financing of SMEs through CYPEF¹ (€800 mn)
   • 50%-50% risk sharing between the Government and the banks

4. Government Guarantee to EIB (€1.0 bn)
   • Government additional funding of €500 mn to eligible businesses

European Authorities measures-Implications for Cyprus

1. EU Recovery Fund (€2.7 bn)
   • Cyprus expects to receive €1.3 bn in grants during the period 2021-23 and additional loans up to €1.4 bn
   • The exact amounts will depend on the finalisation of the allocation criteria and on the government’s national plan that will be submitted to the European Commission

2. Pan-European Guarantee Fund (PEGF) (€300-€400 mn)
   • Liquidity support to eligible businesses through the PEGF of EIB
   • Guarantee to the banks of up to 80%

3. EU SURE Programme (€479 mn)
   • Financial assistance in the form of loans supporting member states in their employment preservation schemes

4. Access to ESM’s Pandemic Crisis Support through the Enhanced Conditions Credit Line, for c.€440 mn (2% of GDP)

¹ The Cyprus Enterprise Fund
Cypriot economy: nascent signs of recovery appear post lockdown

Cypriot economy recorded a drop of 11.9% in 2Q2020 vs 15.0% decline in Euro Area

Tourism arrivals (mn) impacted by COVID-19 lockdown

Economic Sentiment starting to improve post lockdown

- Cypriot economy contracted by 11.9% in 2Q2020, reflecting COVID-19 lockdown
- Restart of the economy as of early May 2020, post lockdown
- Unprecedented policy response to mitigate COVID-19 impact
- Economic sentiment index improved since May 2020, driven by improvement in confidence in nearly all sectors as well as improvement in consumer confidence
- Weak international summer tourism arrivals, although partly offset by domestic tourism

(1) This is the ratio of digitally engaged individual customers to the total number of individual customers. Digitally engaged customers are the individuals who use the digital channels of the Bank (mobile banking app, browser and ATMs) to perform banking transactions, as well as digital enablers such as a bank-issued card to perform online card purchases.

(2) This is the ratio of the number of digital transactions performed by individuals and legal entity customers to the total number of transactions. Transactions include deposits, withdrawals, internal and external transfers. Digital channels include mobile, browser and ATMs.
Supporting customers and society through COVID-19

Loan moratorium

- Payment holidays until end of 2020 (capital & interest) for customers with arrears <30 days as at 29 Feb 2020
- €6.0 bn (>25k customers approved)
  - €2.1 bn private individuals
  - €3.9 bn businesses

New lending

- €689 mn new loans in 1H2020
- Participation in the governmental schemes for the subsidy of interest rate to private individuals and businesses
- Strong pipeline of over €65 mn for new housing loans, as at 21 August 2020

Maintaining Operational Resilience

- All branches operating as usual post lockdown
- Increased usage of digital channels sustained post lockdown
- 72% of customers currently digitally engaged\(^1\) (vs 66% in 1H2019)
- 83\% of total transactions\(^2\) are performed through digital channels (vs 75\% in 1H2019)

SupportCY

- Support to ministries, agencies and authorities in the fight against COVID-19
- Donations of c.€0.5 mn for the fight of the pandemic:
  - c.€220K for the purchase of medical equipment
  - c.€260K for the support of educational activities
- Grants covering cost of repatriation flights

---

\(^1\) This is the ratio of digitally engaged individual customers to the total number of individual customers. Digitally engaged customers are the individuals who use the digital channels of the Bank (mobile banking app, browser and ATMs) to perform banking transactions, as well as digital enablers such as a bank-issued card to perform online card purchases.

\(^2\) This is the ratio of the number of digital transactions performed by individuals and legal entity customers to the total number of transactions. Transactions include deposits, withdrawals, internal and external transfers. Digital channels include mobile, browser and ATMs.
Continue to support customers through payment deferrals

COVID-19 moratorium until the end of 2020, as per government measures

- Application period ended 30 June 2020
- Moratorium period of up to Dec 2020 to address seasonality of the Cypriot economy
- Capital plus interest; Interest continues to accrue
- COVID-19 moratorium does not trigger automatic reclassification due to forbearance
- Continue to monitor the creditworthiness of customers who applied for the loan moratorium

Businesses
- Individual assessment of businesses was initiated in May 2020, with an initial focus on high risk customers
- Largest 30 businesses under moratorium amount to €1.7 bn or nearly half of all business loans under moratorium; over 70% has been reviewed without triggering a change in UTP
- 9% of businesses under moratorium paid at least 1 instalment, until 30 June 2020

Private Individuals
- Individual assessments of private individuals under moratorium has also commenced with priority to individuals with low credit scoring and employed in high risk industries, such as tourism
- One quarter of private individuals under moratorium paid at least 1 instalment until 30 June 2020

(1) Gross loans as at 30 June 2020: Corporate (incl. IB and W&M and Global Corporate), SME, Retail, Insurance and H/O
(2) Unlikely to pay criteria
Private individuals loan portfolio, highly collateralised

Private Individuals: €3.97 bn

- Migration of c.€360 mn gross loans from Stage 2 to Stage 1 during 2Q2020, due to enriched data availability
- Coverage for Stage 3 loans maintained post Helix 2 (52.1%)
- Individual assessment of businesses under moratorium was initiated in May 2020, with an initial focus on high risk customers
- Largest 30 businesses under moratorium amount to €1.7 bn or nearly half of all business loans under moratorium; over 70% has been reviewed without triggering a change in UTP
- Individual assessments of private individuals under moratorium has also commenced with priority to individuals with low credit scoring and employed in high risk industries, such as tourism

(1) Calculations on a pro forma basis assume completion of the transaction
Foreclosures resume on 1 September 2020

Following COVID-19 outbreak, foreclosure process suspended until 31 August 2020, in line with the latest decision of the Association of Cyprus Banks.

In July 2019, the Parliament has voted through certain changes to the foreclosure law which, in the most part, seek to:
- Provide additional checks and balances where banks are seeking to foreclose small loans (<€350k) secured by a Principal Primary Residence, and
- Extend the foreclosure timetable by extending various notice periods

These amendments were passed into law in June 2020.

The amendments extend the foreclosure process by c.1 month to c.9 months.

---

(1) Excluding Helix
(2) The foreclosure process is considered to have commenced upon serving notice to the mortgagor
(3) Foreclosures commenced and auctions held up to ACB announcement suspending foreclosures until 31 August 2020

  - 2019: 4.5%
  - 2020: 4.5%

**Notes:**

1. The Central Bank of Cyprus (CBC) set the O-SII buffer for the Group at 2%. This buffer will be phased in gradually, having started from 1 January 2019 at 0.5% and increasing by 0.5% every year thereafter, until being fully implemented (2.0%) on 1 January 2022. In April 2020 the CBC, as part of the COVID measures, decided to delay the phasing-in by 12 months (1 January 2023). As a result, the phasing-in of 0.5% on 1 January 2021 has been delayed for 12 months.
2. In accordance with the legislation in Cyprus which has been set for all credit institutions the applicable rate of the CCB was fully phased in at 2.5% in 2019.
3. Additional Tier 1 Capital
4. The new provisions are effective from January 2020
5. This decision is based on the current legislation, it is expected to be updated annually and could be subject to subsequent changes by the resolution authorities, especially considering the developments of the Bank Recovery and Resolution Directive (BRRD) and its transposition into the local legislation

• Per EBA final guidelines on SREP and supervisory stress testing and the Single Supervisory Mechanism’s (SSM) 2018 SREP methodology own funds held for the purposes of Pillar II Guidance cannot be used to meet any other capital requirements (Pillar 1, Pillar II requirement or the combined buffer requirements), and therefore cannot be used twice

• In May 2020, the Bank received formal notification from the CBC in its capacity as National Resolution Authority, of the final decision by the Single Resolution Board (SRB), for the binding minimum requirement for own funds and eligible liabilities (MREL) for the Bank, determined as the preferred resolution point of entry. The MREL requirement has been set at 28.36% of risk weighted assets as of 30 June 2019 and must be met by 31 December 2025. This MREL requirement would be equivalent to 18.54% of total liabilities and own funds (TLOF) as at 30 June 2019. The MREL requirement is in line with the Bank’s expectations, and largely in line with its funding plans

• The MREL ratio of the Bank as at 30 June 2020, calculated according to SRB’s eligibility criteria currently in effect, and based on our internal estimate stood at 18.21% of RWAs

1. The interest income, non-interest income, staff costs, other operating expenses and loan credit losses related to Project Helix are disclosed under ‘Provisions/net loss relating to NPE sales, including restructuring expenses’ since they are considered one-off items.
2. ‘Provisions/net loss relating to NPE sales including restructuring expenses’ refer to the net loss on transactions completed during each period, net loan credit losses on transactions under consideration and for potential further sales at each reporting date, as well as the restructuring costs relating to these trades.

- NII decreased to €83 mn in 2Q2020, mainly due to higher cash collections on interest not previously recognized in 1Q2020, offset by lower cost of deposits.
- Non-interest income of €60 mn for 2Q2020, flat qoq.
- Total expenses reduced to €87 mn in 2Q2020, compared to €93 mn in 1Q2020, due to COVID-19 related lower staff costs and seasonality of Deferred Guarantee Fund contribution.
- C/I ratio at 57%, broadly flat qoq.
- Loan credit losses of €23 mn in 2Q2020, reflecting cost of risk of 76 bps.
- Other impairments of €25 mn for 2Q2020, on specific, large, illiquid REMU properties.
- Provisions/net loss relating to NPE sales of €104 mn for 2Q2020, including Helix 2 loss of €68 mn and loan credit losses of €21 mn for potential future NPE sales.
- Profit after tax-organic of €4 mn in 2Q2020.
- Loss after tax of €100 mn for 2Q2020 and €126 mn for 1H2020.

</tbody>
</table>

- €5 mn annual potential NII benefit from the take up of €1 bn TLTRO III
- Challenging interest rate outlook continues to put pressure on the effective yield of liquids

Loan yields:
- Non-Legacy book yields remain under pressure mainly due to the continued lower interest rate environment and intense competition pressure
- Despite competitive pressures, efforts to improve credit spreads are underway
- Higher-yielding, higher-risk legacy loans are reducing as we successfully exit NPEs
- Legacy book yields remain volatile

Cost of funding:
- The reduction of cost of deposits continues
- Cost of deposits reduced by 3 bps in 2Q2020 and by 68 bps since year end 2017

(1) Cash, placements with banks, balances with central banks and bonds
(2) Other includes funding from central banks and deposits by banks and repurchase agreements. For further details, please see slide 67
(3) Effective yield of liquid assets: Interest income on liquids after hedging, over average liquids (Cash and balances with central banks, placements with banks and bonds)
(4) Effective yield of cost of funding: Interest expense of all interest bearing liabilities after hedging, over average interest bearing liabilities (customer deposits, funding from the central bank, interbank funding, subordinated liabilities)
Non interest income flat qoq, despite COVID-19 lockdown

Analysis of Non Interest Income (€ mn) – Quarterly

<table>
<thead>
<tr>
<th>Quarterly</th>
<th>1Q2020</th>

</tr>
<tr>
<td>Total</td>
<td>38</td>
<td>33</td>
</tr>
</tbody>
</table>

- Net fee and commission income of €33 mn for 2Q2020, down 13% qoq, negatively impacted by COVID-19 lockdown
- Transactional fees of €12 mn for 2Q2020, down 22% qoq, mainly due to lower volume of transactions; transactional fee volumes expected to recover to pre COVID-19 levels, as the Cypriot economy continues to recover
- Non transactional fees of €21 mn for 2Q2020, down 5% qoq due to the reduced Project Helix servicing fee as a result of the transfer of c.100 employees to the buyer in 1Q2020
- Net Insurance income of €18 mn for 2Q2020, compared to €11 mn for 1Q2020, primarily due to the change in the valuation rate and lower motor vehicle insurance claims
- Recurring income of €51 mn for 2Q2020, compared to €49 mn in 1Q2020, as the higher Net insurance income offset the reduction in Net fees and commission income
- Introduction of liquidity fees to a broader group of corporate customers that was delayed due to COVID-19, is under consideration, once market conditions allow this
- Fees and commission charges review underway

(1) Net FX gains/(losses) & Net gains/(losses) on financial instruments, and other income
(2) Gains/(losses) from revaluation and disposal of investment properties and on disposal of stock of properties
(3) The interest income, non-interest income, staff costs, other operating expenses and loan credit losses related to Project Helix are disclosed under ‘Provisions/net loss relating to NPE sales, including restructuring expenses’ since they are considered one-off items

Key highlights

Continue to deliver on strategic priorities, while supporting customers, colleagues and communities through COVID-19

1. Continue to support the recovery of the Cypriot economy via prudent new lending

2. Improvement of asset quality
   - Arrest asset quality deterioration after the end of the moratorium, monitor and manage early arrears
   - Continue the NPE reduction via organic and non organic solutions

3. Further improvement of operating efficiency supported by on-going digital transformation

Glossary & Definitions
### Glossary & Definitions

#### Allowance for expected loan credit losses (previously ‘Accumulated provisions’)
Comprises (i) allowance for expected credit losses (ECL) on loans and advances to customers (including allowance for expected credit losses on loans and advances to customers held for sale), (ii) the residual fair value adjustment on initial recognition of loans and advances to customers, (iii) allowance for expected credit losses for off-balance sheet exposures (financial guarantees and commitments) disclosed on the balance sheet within other liabilities, and (iv) the aggregate fair value adjustment on loans and advances to customers classified and measured at FVPL.

#### Advisory and other restructuring costs
Comprise mainly: fees of external advisors in relation to: (i) disposal of operations and non-core assets, and (ii) customer loan restructuring activities.

#### AIEA
This relates to the average of ‘interest earning assets’ as at the beginning and end of the relevant quarter. Average interest earning assets exclude interest earning assets of any discontinued operations at each quarter end, if applicable. Interest earning assets include: cash and balances with central banks, plus loans and advances to banks, plus net loans and advances to customers (including loans and advances to customers classified as non-current assets held for sale), plus investments (excluding equities and mutual funds).

#### AT1
AT1 (Additional Tier 1) is defined in accordance with Articles 51 and 52 of the Capital Requirements Regulation (EU) No 575/2013, as amended by CRR II applicable as at the reporting date.

#### Average contractual interest rates
Interest rates on cost of deposits were previously calculated as the Interest Expense over Average Balance. The current calculation which the Bank considers more appropriate is based on the weighted average of the contractual rate times the balance at the end of the month. The rates are calculated based on the month end contractual interest rates. The quarterly rates are the average of the three quarter month end contractual rates.

#### Book Value
BV= book value – Carrying value prior to the sale of property

#### CET1 capital ratio (transitional basis)
CET1 capital ratio (transitional basis) is defined in accordance with the Capital Requirements Regulation (EU) No 575/2013, as amended by CRR II applicable as at the reporting date.

#### CET1 fully loaded (FL)
The CET1 fully loaded (FL) ratio is defined in accordance with the Capital Requirements Regulation (EU) No 575/2013, as amended by CRR II applicable as at the reporting date.

#### Cost of Funding
Effective yield of cost of funding: Interest expense of all interest bearing liabilities after hedging, over average interest bearing liabilities (customer deposits, funding from the central bank, interbank funding, subordinated liabilities). Historical information has been adjusted to take into account hedging.

#### Contribution to DGF
Relates to the contribution made to the Deposit Guarantee Fund.

#### Contribution to SRF
Relates to the contribution made to the Single Resolution Fund.

#### Cost to Income ratio
Cost-to-income ratio comprises total expenses (as defined) divided by total income (as defined).

#### Cost of Risk
Loan credit losses charge (cost of risk) (year to date) is calculated as the annualised ‘loan credit losses’ (as defined) divided by average gross loans (the average balance is calculated as the average of the opening balance and the closing balance).

#### CRR DD
Default Definition.

#### DFAs
Debt for Asset Swaps.

#### DFEs
Debt for Equity Swaps.

#### DTA
Deferred Tax Assets.

<tr>
<td>Market shares</td>
<td>Both deposit and loan market shares are based on data from the CBC. The Bank is the single largest credit provider in Cyprus with a market share of 41.7% at 30 June 2020, compared to 41.0% at 31 March 2020, 41.1% at 31 December 2019, 40.8% at 30 September 2019, 41.3% at 30 June 2019, 46.7% at 31 March 2019, 45.4% at 31 December 2018 and as at 30 September 2018, 38.6% at 30 June 2018 and 37.4% at 31 March 2018. The market share on loans was affected as at 30 June 2019 following the derecognition of the Helix portfolio upon the completion of Project Helix announced on 28 June 2019. The market share on loans was affected during the quarter ended 31 March 2019 following a decrease in total loans in the banking sector of €1 bn, mainly attributed to reclassification, revaluation, exchange rate and other adjustments (CBC). The market share on loans was affected as at 30 September 2018 following a decrease in total loans in the banking sector, mainly attributed to €6 bn non-performing loans of Cyprus Cooperative Bank (CyCB) which remained to SEDIPES as a result of the agreement between CyCB and Hellenic Bank. The market share on loans was affected as at 30 June 2018 following a decrease in total loans in the banking sector of €2.1 bn, due to loan reclassifications, revaluations, exchange rate or other adjustments (CBC).</td>

## Glossary & Definitions

### Non-interest income
Non-interest income comprises Net fee and commission income, Net foreign exchange gains and net gains on financial instrument transactions and disposal/dissolution of subsidiaries and associates (excluding net gains on loans and advances to customers at FVPL), Insurance income net of claims and commissions, Net gains/(losses) from revaluation and disposal of investment properties and on disposal of stock of properties, and Other income.

### Non-recurring items
Non-recurring items as presented in the ‘Consolidated Condensed Interim Income Statement – Underlying basis’ relate to the following items, as applicable: (i) advisory and other restructuring costs - organic, (ii) restructuring costs – Voluntary Staff Exit Plan (VEP), (iii) Provisions/net loss relating to NPE sales, including restructuring expenses, (iv) Loss on remeasurement of investment in associate upon classification as held for sale (CNP) net of share of profit from associates, and (v) Reversal of impairment of DTA and impairment of other tax receivables.

### NPEs
According to the EBA standards and ECB’s Guidance to Banks on Non-Performing Loans (published in March 2017), NPEs are defined as those exposures that satisfy one of the following conditions: (i) the borrower is assessed as unlikely to pay its credit obligations in full without the realisation of the collateral, regardless of the existence of any past due amount or of the number of days past due, (ii) defaulted or impaired exposures as per the approach provided in the Capital Requirement Regulation (CRR), which would also trigger a default under specific credit adjustment, distress restructuring and obligor bankruptcy, (iii) material exposures as set by the CBC, which are more than 90 days past due, (iv) performing forborne exposures under probation for which additional forbearance measures are extended, and (v) performing forborne exposures under probation that present more than 30 days past due within the probation period. When a specific part of the exposures of a customer that fulfils the NPE criteria set out above is greater than 20% of the gross carrying amount of all on balance sheet exposures of that customer, then the total customer exposure is classified as non-performing; otherwise only the specific part of the exposure is classified as non-performing. The NPEs are reported before the deduction of allowance for expected loan credit losses (as defined).

The exit criteria of NPE forborne are the following:

1. The extension of forbearance measures does not lead to the recognition of impairment or default
2. One year has passed since the forbearance measures were extended
3. There is not, following the forbearance measures, any past due amount or concerns regarding the full repayment of the exposure according to the post forbearance conditions

### NPE coverage ratio (previously ‘NPE Provisioning coverage ratio’)
The NPE coverage ratio is calculated as the allowance for expected loan credit losses (as defined) over NPEs (as defined).

### NPE ratio
NPEs ratio is calculated as the NPEs as per EBA (as defined) divided by gross loans (as defined).

### NPEs sales
NPE sales refer to sales of NPE portfolios completed in each period and contemplated sale transactions, as well as potential further NPE sales, at each reporting date, irrespective of whether or not they met the held for sale classification criteria at the reporting dates. They include both Project Helix and Project Helix 2, as well as other portfolios.

### NSFR
The NSFR is calculated as the amount of “available stable funding” (ASF) relative to the amount of “required stable funding” (RSF), on the basis of Basel III standards. Its calculation is a SREP requirement. The EBA NSFR will be enforced as a regulatory ratio under CRR II in 2021.

### OMV
Open Market Value

### Operating profit
Comprises profit before Total loan credit losses, impairments and provisions (as defined), tax, (profit)/loss attributable to non-controlling interests and non-recurring items (as defined).

### p.p.
percentage points

### Non-legacy
Relates to all business lines excluding Restructuring and Recoveries Division (“RRD”), REMU and non-core overseas exposures

### Phased-in Capital Conservation Buffer (CCB)
In accordance with the legislation in Cyprus which has been set for all credit institutions, the applicable rate of the CCB is 1.25% for 2017, 1.875% for 2018 and 2.5% for 2019 (fully phased-in).
